classroom practice. Shaun Allison and Andy Tharby examine the evidence behind what makes great teaching and explore how to implement this in the classroom to make a difference to learning. They distil teaching and learning down into six core principles challenge, explanation, modelling, practice, feedback and questioning and show how these can inspire an ethos of excellence and growth, not only in individual classrooms but across a whole school too. Combining robust evidence from a range of fields with the	practical wisdom of experienced, effective classroom teachers, the book is a complete toolkit of strategies that teachers can use every lesson to make that lesson count. There are no gimmicky ideas here just high impact, focused teaching that results in great learning, every lesson, every day. To demonstrate how attainable this is, the book contains a number of case studies from a number of professionals who are successfully embedding a culture of excellence and growth in their schools. Making Every Lesson Count	offers an evidence-informed alternative to restrictive Ofsted-driven definitions of great teaching, empowering teachers to deliver great lessons and celebrate high-quality practice. Suitable for all teachers including trainee teachers, NQTs, and experienced teachers who want quick and easy ways to enhance their practice and make every lesson count. Educational Book Award winner 2016 Judges' comments: A highly practical and interesting resource with loads of information and uses to support and inspire teachers of all levels of

experience. An essential staffroom book.

Edexcel AS and a Level Modular Mathematics Statistics 1 S1

Coordination Group Publication

This pupil's text offers a thorough match to the Edexcel GCSE Statistics specification. It includes foundation and higher material, coursework teaching and advice to help students complete the compulsory project, and an exam-style practice paper.

Education under siege

Oxford University Press - Children

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B

specification, this brand new course is written to match the demands of the specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

Edexcel Award in Algebra Level 3 Workbook Crown House Publishing Ltd

Test questions are provided for each chapter of this textbook, together with detailed mark schemes to

make assessment easy. Two versions of each question are provided. One allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free

non-calculator supplement organized by unit/chapter is also included in this resource.

will challenge everything she thought she knew about her world . . .

Edexcel GCSE Maths:

Higher Heinemann England's school system performs below its potential and can improve significantly. This white paper outlines action designed to: tackle the weaknesses in the system; strengthen the status of teachers and teaching; reinforce the standards set by the curriculum and qualifications; give schools back the

freedom to determine their own development; make schools more accountable to parents, and help them to learn more quickly and systematically from good practice elsewhere; narrow the gap in attainment between rich and poor. The quality of teachers and teaching is the most important factor in determining how well children do. The Government will continue to raise the quality of new entrants to the profession, reform initial teacher

training, develop a network of "teaching schools" to lead training and development, and reduce the bureaucratic burden on schools. Teachers will be given more powers to control bad behaviour. The National Curriculum will be reviewed, specifying a tighter model of knowledge of core subjects so that the Curriculum becomes a benchmark against which school can be judged. Schools will be given more freedom and autonomy, the Academies

programme extended and pupils.
parents will be able to set up "Free Schools" to meet parent demand. Accountability for pupil performance is critical, and much more information will be available to aid understanding of a school's performance. School improvement will be the responsibility of schools, not central government. Funding of schools needs to be fairer and more transparent, and there will be a Pupil Premium to target resources on the most deprived
