GCSE Mathematics for Edexcel Higher
Homework Book
Essential Public Affairs for Journalists

is an invaluable guide for both journalism students and practising journalists. It takes readers through details of the constitutional framework and the governing institutions of the UK; covers the NHS, the Treasury, industry, utilities, social security and home affairs; explores the role of the UK in the EU and the wider world of international relations; and focuses on local government issues and how these can generate a wealth of stories for the student and professional journalist alike.

The fourth edition has been updated with details of the cuts programme; coverage of the continuing debate over the rise of UKIP and Britain's future in the European Union; and an assessment of the immediate aftermath of the referendum on Scottish independence. There is clearer end of chapter guidance on the key issues students need to consider for the NCTJ essential public affairs course and a tighter focus on the material covered in the revised syllabus. The extensive

pedagogy uses new examples to inspire students in the development of their own stories. The text is supported by an online resource centre: Web links

Exploring Maths James Currey Publishers

At a time when education is considered crucial to a country's economic success, recent UK governments have insisted their reforms are the only way to make England's system world class. Yet pupils are tested rather than educated, teachers bullied rather than trusted and parents cast as winners or losers in a gamble for school places. Education under siege considers the English education system as it is and as it might be. In

a highly accessible style, Peter Mortimore, an author with wide experience of the education sector, both in the UK and abroad, identifies the current system's strengths and weaknesses. He concludes that England has some of the best teachers in the world but one of the most muddled systems. Challenging the government's view that there is no alternative, he proposes radical changes to help all schools become good schools. They include a system of schools receiving a fair balance of pupils who learn easily and those who do not, ensuring a more even spread of effective teachers, as well as banning league tables, outlawing selection, opening up faith schools and integrating private schools into the state system. In the final chapter, he asks readers who share his

concerns to demand that the politicians alter course. The book will appeal to parents, education students and teachers, as well as everyone interested in the future education of our children.

Edexcel Gcse (9-1) History Conflict in the Middle East, C1945&Ndash;1995 Student Book Letts and Lonsdale

Higher course National Academies Press

As a five-year-old, George Alagiah emigrated with his family to Ghana - the first African country to attain independence from the British Empire. *A PASSAGE TO AFRICA* is Alagiah's shattering catalogue of atrocities crafted into a portrait of Africa that is infused with hope, insight and outrage. In vivid and evocative prose and with a fine eye for detail Alagiah's viewpoint is spiked with the freshness of the young George on his arrival in Ghana, the wonder with which he recounts his first impressions of Africa and the affection with which he dresses his stories of his early family life. A sense of possibility lingers, even though the book is full of uncomfortable truths. It is a

book neatly balanced on his integrity and sense of obligation in his role as a writer and reporter. The shock of recognition is always there, but it is the personal element that gives *A PASSAGE TO AFRICA* its originality. Africa becomes not only a group of nations or a vast continent, but an epic of individual pride and suffering.
