The Explorer Bushra Arshad

Tommy Atkins is the English soldier, who joking broke the cavalry of France at Minden, who singing marched with the Great Duke to the Danube, who grumbling shattered Napoleon's dreams at Waterloo, who sweating in his red coat tramped back and forth across Indis, who kept his six-rounds-to-the-minute at Mons, and who died in the mud at Passchendaele, the sands of the Western Desert, and the jungles of Burma. If his name has been eclipsed by his more illustrious commanders - Cromwell, Marlborough, Moore, Wolfe, Wellington, Allenby, Slim - they at least will accord him his rightful place beside them. They knew his worth. Tommy Atkins is his story - the story of this most versatile, most

adaptable, most unmilitary soldier.

The Story of the English Soldier Pearson Education Gentleman, we may not make history tomorrow, but we shall certainly change the geography. ' So said General Plumer the day before 600 tons of explosives were detonated under the German position on Messines Ridge. The explosion was heard by Lloyd George in Downing Street, and as far away as Dublin. Until 1918, Messines was the only clear cut Allied victory on the Western Front, coming at a time when Britain and her allies needed it most: boosting Allied morale and shattering that of the Germans. Precisely orchestrated, Messines was the first true all-arms modern battle which brought together artillery, engineers, infantry, tanks, aircraft and administrative units from a commonwealth of nations to defeat the common enemy. So why is its name not as familiar as the Somme, Passchendaele or Verdun? This book examines the battle for the Messines-Wytschaete Ridge from the British, ANZAC and German perspectives. Illustrated with archive photographs and maps, it is a major contribution to our understanding of one of the seminal battles of the First World War.
