The Pilgrims called the celebration the Harvest Feast. The Pawtuxet Indians thought of it as the Green Corn Dance. But the first Thanksgiving was much more than that. Join Newbery Medalist Jean Craighead George and beloved illustrator Thomas Locker as they trace the passage of time from the melting of the glaciers that created Cape Cod and Plymouth Rock, to the moment the Pawtuxet Indians and the Pilgrims met and feasted on the bounty of the

New World. From the simple text to the lush illustrations, the story of a harvest feast turned beloved tradition will captivate readers young and old. "Correcting misconceptions and clarifying contemporary attitudes, this beautiful book brings fresh insight and a fairer balance to the traditional story." —Kirkus Reviews

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They

possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. "This volume examines the relationship between nutrition and the aging process and offers nutritional guidelines for promoting and sustaining the health and function of elderly people. Leading international investigators shed new light on the role of diet in age-related physiological changes, the significance of nutritional factors in the etiology of

geriatric diseases, the specific nutrient requirements of healthy elderly people and geriatric patients, and the pathological and environmental factors leading to malnutrition among the elderly. In addition to formulating recommendations for optimal nutrition during later life, the contributors stress the importance of nutrition during earlier adult life in preventing chronic diseases prevalent among the elderly, such as cardiovascular diseases, osteoporosis, muscular atrophy, disorders of immune function, and

In spring, the hills and meadows of Texas and Wyoming are ablaze with the reds, oranges, and yellows of the Indian Paintbrush. How this striking plant received its name is told in an old Indian legend. Many years ago, when the People traveled the Plains, a young Indian boy had a Dream-Vision in which it was revealed that one day he would create a painting

that was as pure as the colors of the evening sky at sunset. The boy grew up to become the painter of the tribe, but although he found a pure white buckskin for a canvas and made paints from the brightest flowers and the reddest berries, he could not capture the sunset. How the young Indian artist finally fulfills his Dream-Vision is lovingly told and illustrated by Tomie dePaola, in words and pictures that capture the spirit and beauty of this dramatic legend. In this fast-paced adventure story set in the Canadian arctic, fifteen-year-old Inuit hunter Nick Thrasher comes face-to-face with a fearsome creature on a routine caribou hunt gone wrong. Part grizzly, part polar bear, this environmental mutant has been pegged the "grolar bear" by wildlife experts.

Nick may have escaped this time, but it won't be his last encounter. Then Nick's estranged half-brother, Ryan, offers to take him on a rafting trip down a remote part of the Firth River. But when disaster strikes, the two narrowly evade death. They're left stranded without supplies—and then the grolar bear appears. Will Hobbs brings his singular style to this suspenseful story about two brothers fighting for survival against the unpredictable—and sometimes deadly—whims of
