Key Strategies for Teaching Editing Monday Morning Books When a class leaves for recess, their just-baked Gingerbread Man is left behind. But he's a smart cookie and heads out to find them. He'll run, slide, skip, and

(after a mishap with a soccer ball) limp as fast as he can because: "I can catch them! I'm their Gingerbread Man!" With help from the gym teacher, the nurse, the art teacher and even the principal, the Gingerbread Man does find his class, and he's assured they'll never leave him behind again. Teachers often use the Gingerbread Man story to introduce new students to the geography and staff of schools, and this fresh, funny twist on the original can be used all year long. Includes a poster with fun activities!

Meet the Marks is a colorful and whimsical adventure about a family of punctuation marks whose children begin to question their purpose and the boundaries of their surroundings. Each of our characters speak in conjunction with their function. Though it is clear to adults that the characters are punctuation marks, to young

children they are whimsical characters. Meet the Marks is an engaging read for children, with the added benefit for parents and educators to begin a dialogue that reaches well beyond the story.

Ultimately, Meet the Marks is an adventure story that reminds us all how much we need to be grateful for each other in the stories of our lives.

Writing Lesson Level 3--Using Editing Marks Carson-Dellosa Publishing

Editing is often seen as one item on a list of steps in the writing process?usually put somewhere near the end, and often completely crowded out of writer's workshop. Too many times daily editing lessons happen in a vacuum, with no relationship to what students are writing. In *Everyday Editing*, Jeff Anderson asks teachers to reflect on what sort of message this approach sends to students. Does it tell them that editing and revision are meaningful parts of the writing process, or just a hunt for errors with a 50/50 chance of getting it right?comma or no comma? Instead of rehearsing errors and

drilling students on what's wrong with a sentence, Jeff invites students to look carefully at their writing along with mentor texts, and to think about how punctuation, grammar, and style can be best used to hone and communicate meaning. Written in Jeff's characteristically witty style, this refreshing and practical guide offers an overview of his approach to editing within the writing workshop as well as ten detailed sets of lessons covering everything from apostrophes to serial commas. These lessons can be used throughout the year to replace Daily Oral Language or error-based editing strategies with a more effective method for improving student writing. *Daily Paragraph Editing, Grade 6 Teacher Edition* Teacher Created Resources Provides ideas, strategies and mini-lessons for helping students in grades 2-6 revise their writing.

In her 30 years as an educator, Debbie Diller has closely examined classroom practice, asking Why? What's the purpose? Watching primary students work successfully at literacy work stations, she wondered with teachers, Why don't we have upper-grade students doing this? Could we kick it up a notch? In her new book, Debbie shows teachers of grades three-to-six how to structure their classrooms so that all students can be

successful doing meaningful independent work using literacy work stations. Practice with Purpose offers guidance on establishing routines for independent reading and response writing, as well as step-by-step instructions on how to set up and manage a variety of hands-on literacy work stations appropriate for intermediate students. Each chapter includes: how to introduce the station; innovative ways to use materials; what to model to guarantee independence; how to troubleshoot; assessment and accountability ideas; how the station supports student achievement on state tests; reflection questions for professional development. The extensive appendix includes time-saving tools such as management board icons, graphic organizers, task cards, and recommended

Web sites and children's literature.

In a seemingly tumultuous time of political change, caring and healing are needed now more than ever. This is especially true in education, which has been criticized for a disproportionate focus on the technical aspects of teaching with less focus on its “ human ” aspects. Creating Caring and Supportive Educational Environments for Meaningful Learning is a collection of innovative research on the practical and theoretical questions involved in organizing traditional and nontraditional areas of study around themes of care and support for students within the framework of current educational systems and standards. While highlighting topics including service

learning, ethics of care, and student mental health, this book is ideally designed for teachers, administrators, researchers, and academicians seeking current research on the importance and ethics of the human aspects of education.
