[Expert Car Reviews, Ratings, and News | Edmunds](#)

One GM car Edmunds drove went 13,000 miles before the monitoring system indicated the need for an oil change. We sent a sample of that oil to a lab for analysis.

[Stop Changing Your Oil! & #124; Edmunds.com](#)

This tells me that the "Oil Life Monitoring System" is nothing more than a light that comes on every 10K. At 10.1K, my oil (full synthetic) only had 2K miles on it when the indicator came on telling me to change the oil. So it's not an intelligent system, but only something that lets me know in 10K intervals to change my oil.

[Edmunds' Experts Discuss the 8 Steps to Buying a New Car](#)

Whenever you have your car's oil changed, the service technician should reset the oil-life monitoring system. If you change your own oil, you can reset the system by following the instructions in the vehicle owner's manual.

Less frequent oil changes on newer engines make it essential that you check the oil level monthly and top it up as needed.

[Oil guide: LIQUI MOLY](#)

If your engine is knocking constantly after warming than you do have a problem. As for oil consumption, the problem seems to be most pronounced in the earlier 4.6 engines. Valve guide oil seals are usually the problem, but I have heard that the 4.6 is also has excessive ring wear problems as well.

[Edmunds Oil Change Guide](#)

I wouldn't follow the 10k oil-change recommendation by Audi. I would do it every 5k with regular oil. The only reason I wouldn't recommend synthetic b/c it would be a waste if it's blowing the oil (and your \$\$) out it's tailpipes. Besides, synthetic tends to be thinner so it may make the oil-burning worse. Let me know how it goes. leon
