### Algebra II Princeton Review

The 100+ Series, Algebra II, offers in-depth practice and review for challenging middle school math topics such as factoring and polynomials; quadratic equations; and trigonometric functions. Common Core State Standards have raised expectations for math learning, and many students in grades 6–8 are studying more accelerated math at younger ages. As a result, parents and students today have an increased need for at-home math support. The 100+ Series provides the solution with titles that include over 100 targeted practice activities for learning algebra, geometry, and other advanced math topics. It also features over 100 reproducible, subject specific, practice pages to support standards-based instruction.

Algebra 2 Common-Core: Student Companion Independently Published

The solution methods for quadratic equations presented to students include factoring and completion of the square, as well as solution by formula and graphing. This requires the introduction of complex numbers, but is easily accomplished by relating graphs of parabolas that do not intersect the x-axis with the existence of complex roots.
