BRU-200 Series In Stock

Ships 3-5 days

1-800-991-7026

International

1-919-372-8413 The

BRU-200 is a high
performance industrial drive
that is designed for single
axis and multi-axis
applications. The BRU-200
drives are used to power S-
Series and F-Series motors
and all models use the same
type of power source.

lated 120 VAC input, the BSA-
Series is a lower power, lower
cost alternative to the Electro-
Craft BRU-200 digital
brushless servo drive. The
BSA-Series powers the
standard Electro-Craft S-
Series, F-Series, and LD-
Series permanent magnet
synchronous motors along

with other brushless motors that
have conventional
commutation and encoder
feedback.
