You simply choose your wash and dry settings using these controls, push start, and close the door.

Any illuminated controls will dim and the dishwasher cycle will start.

Controls on the front of a dishwasher are visible when the door is closed. You can see them throughout the wash cycle.

Electrolux Australia
Electrolux dishwasher is a “vulnerable” technique, sensitive to power surges. If you do not have an automatic and stabilizer installed, the dishwasher can easily fall victim to another low or high voltage. In the most positive perspective, only the fuse will suffer, and if it does not, the triacs on the control unit may burn.
