Rinse aid is a common solution, but when it continues to be a problem, consider your unit's heating element may not be functioning. (Your unit will not dry your dishes properly if your heating element is not working and

sometimes this can cause white residue)
I've owned my Electrolux washer and dryer for almost 5 years now. I have had NO problems with mine. The washer is so quiet and so efficient. My clothes come out so clean and almost totally dry after the incredibly fast spin cycle. The dryer is awesome as well. It's fast and the cool down cycle keeps my clothes from coming out wrinkled.
