Turn any student into a bookworm with a few easy

and practical strategies Donalyn Miller says she has yet to meet a child she can't turn into a reader. No matter how far behind Miller's students might be when they reach her 6th grade classroom, they end up reading an average of 40 to 50 books a year. Miller's unconventional approach dispenses with drills and worksheets that make reading a chore. Instead, she helps students

navigate the world of literature and gives them time to read books they pick out themselves. Her love of books and teaching is both infectious and inspiring. In the book, you'll find: Hands-on strategies for managing and improving your own school library Tactics for helping students walk on their own two feet and continue the reading habit after they've finished with your class Data from student surveys and end-of-year feedback that proves how well the Miller Method works The Book Whisperer

From Newbery Honor and Coretta Scott King Author Award winner Renée Watson comes the first book in a young middle grade series about Ryan Hart, a girl who is pure spirit, kindness, and sunshine. Ryan Hart has a lot on her mind--school,

self-image, and especially family. Her dad finally has a new job, but money is tight. That means some changes, like selling their second car and moving into a new (old) house. But Ryan is a girl who knows how to make sunshine out of setbacks. As her brother says when he raps about her, she's got the talent that matters most: it's a talent that can't be seen, she's nice, not mean! secret is revealed to teachers at large: Written Conversations. Just what make Written Conversation s so potent? An ongoing, thoughtful c orrespondenc e between students, and between students and their teachers, Written Conv ersations, above all else, catch and ride the wave of social interaction, which in turn makes school matter to kids. It's that simple. Structure by structure, from beginning to end, Smokey and Elaine describe four variations of these "silent writ ing-to-learn discussions, " during which all students in a classroom think and "talk" at once in writing, instead of one at a time out loud. How Written Conversation s Work 1.It all starts with mini-memos, short student letters that teachers use to introduce, extend, and assess class work. 2.Then come dialogue journals, where pairs dive deeply into academic subjects. 3.Next, groups of three or four

From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions,
