Argumentation and Debate Pearson

For courses in Research Writing, Documentation Writing, and Advanced Composition. Featuring an engaging, direct writing style and inquiry-based approach, *The Curious Researcher: A Guide to Writing Research Papers* emphasizes that curiosity is the best reason for investigating ideas and information. An appealing alternative to traditional research texts, this popular research guide stands apart for its motivational tone, its conversational style, and its conviction that research writing can be full of rewarding discoveries. Offering a wide variety of examples from student and professional writers, this popular guide shows that good research and lively writing do not have to be mutually exclusive. Students are encouraged to find ways to bring their writing to life, even though they are writing with “facts.” A unique chronological organization sets up achievable writing goals while it provides week-by-week guidance through the research process. Full explanations of the technical aspects of writing and documenting source-based papers help students develop sound research and analysis skills. The text also includes up-to-date coverage of MLA and APA styles.

The Structure of Argument teaches students how to approach, develop, and defend arguments one element at a time. This concise but thorough text carefully scaffolds argument for students, explaining approaches

to argumentation, critical reading, and argument analysis. The major components of argumentation--claims, support, assumptions, logic--are explained in depth, and a robust research section shows students how to find, incorporate, and build on existing arguments. The Ninth Edition has been updated with more sourced readings than ever before, including a section of debates on unsettled current topics, further reinforcing the importance of research and synthesis. With its value price tag, *The Structure of Argument* is an affordable, accessible resource for the argument classroom. The Structure of Argument is available with LaunchPad Solo for Readers and Writers. By combining formative and summative assessments with opportunities to study, practice, and review specific skills, LaunchPad Solo for Readers and Writers provides instructors with a quick and flexible solution for targeting instruction on critical reading, the writing process, grammar, mechanics, style, and punctuation based on students' unique needs. Students will gain confidence by working through sequenced units that guide them from concept to mastery. At home or in class, students learn at their own pace, with instruction tailored to individual learners.

Interpersonal Communication: Everyday Encounters Bedford/st Martins

The Structure of Argument covers critical thinking, reading, writing, and research. Concise but thorough, it includes questions, exercises, writing assignments, and a full semester's worth of readings--everything students need in an affordable, compact format. Presenting Aristotelian and Rogerian as well as Toulmin argument, *The Structure of Argument* has been totally revised, with more than

three-quarters of the readings new (including many multimodal selections available online at no extra charge), new coverage of multimodal argument, expanded treatment of key rhetorical concepts, a fresh new design, and additional support for research. Its emphasis on Toulmin argument makes *Structure* highly teachable, since the approach fits with the goals of the composition course.

Learn how to persuade cats—the world’s most skeptical and cautious negotiators—with this primer on rhetoric and argument from the New York Times bestselling author of *Thank You for Arguing!* Cats are skilled manipulators who can talk you into just about anything without a single word (or maybe a meow or two). They can get you to drop whatever you’re doing and play with them. They can make you serve their dinner way ahead of schedule. They can get you to sit down in an instant to provide a lap. On the other hand, try getting a cat to do what you want.... While it’s hard, persuading a cat is possible. And after that, persuading humans becomes a breeze, and that is what you will learn in this book. *How to Argue with a Cat* will teach you how to:

- Hold an intelligent conversation—one of the few things easier to do with a cat than a human.
- Argue logically, even if your opponent is furry and irrational.
- Hack up a fallacy (the hairball of logic).
- Make your body do the talking (cats are very good at this).
- Master decorum: the art of fitting in with cats, venture capitalists, or humans.
- Learn the wisdom of predator timing to pounce at the right moment.
- Get someone to do something or stop doing it.
- Earn any creature’s respect and loyalty.

American Prophecy Rowman & Littlefield

Nella Larsen (1891-1964) occupies a central place in African-American and Modernist literature, and her status as a Harlem Renaissance woman writer is rivaled only by Zora Neale Hurston's. This Norton Critical Edition of Larsen's electrifying 1929 novel is accompanied by Carla Kaplan's insightfully detailed introduction, explanatory annotations, and a Note on the Text "Backgrounds and Contexts" connects *Passing* to the historical events of the day, most notably the sensational Rhinelander/Jones case of 1925. Fourteen contemporary reviews are reprinted, including those by Alice Dunbar-Nelson, W. B. Seabrook, Mary Griffin, and W. E. B. Du Bois. Little-known documents, including those by Juanita Ellsworth and Caleb Johnson, reveal America's fascination with-and fear of-the cultural phenomenon of passing. Also included are Larsen's statements on the novel and on passing, as well as a generous selection of her letters. The theme of "The Tragic Mulatto(a)" in American literature is explored through related writings by Lydia Maria Child, William Wells Brown, Kate Chopin, Mark Twain, Countee Cullen, and Langston Hughes, among others. Finally, Joseph Seamon Cotter, Jr., Jessie Redmon Fauset, Countee Cullen, W. E. B. Du Bois, Allen Semi [Nella Larsen], George S. Schuyler, Carl Van Vechten, and Langston Hughes voice their impressions of passing from the perspective of the Harlem Renaissance. "Criticism" provides sixteen diverse interpretations of *Passing* by, among others, Deborah E. McDowell, Judith Butler, Cheryl A. Wall, Thadious M. Davis, George Hutchinson, Mary Helen Washington, Ann duCille, Gayle Wald, Claudia Tate, and Jennifer DeVere Brody. A Chronology and Selected Bibliography are also included. Book jacket.

With *Elements of Argument* you get two books in one: an argument text and a reader focused on the issues you care about. In addition you 'll find lots of support to help you understand the components of argument in order to build your own compelling essays. And if you 're writing a research paper, you 'll appreciate the guidance on evaluating sources for bias and the sample essays that model effective use of digital sources.

Many Sides: A Protagorean Approach to the Theory, Practice and Pedagogy of Argument Bedford/st Martins

Sara R. Farris examines the demands for women's rights from an unlikely collection of right-wing nationalist political parties, neoliberals, and some feminist theorists and policy makers. Focusing on contemporary France, Italy, and the Netherlands, Farris labels this exploitation and co-optation of feminist themes

by anti-Islam and xenophobic campaigns as

"femonationalism." She shows that by characterizing Muslim males as dangerous to western societies and as oppressors of women, and by emphasizing the need to rescue Muslim and migrant women, these groups use gender equality to justify their racist rhetoric and policies. This practice also serves an economic function. Farris analyzes how neoliberal civic integration policies and feminist groups funnel Muslim and non-western migrant women into the segregating domestic and caregiving industries, all the while claiming to promote their emancipation. In the *Name of Women's Rights* documents the links between racism, feminism, and the ways in which non-western women are instrumentalized for a variety of political and economic purposes.

The Nolan Variations Macmillan

Nearly every depressed person is assured by doctors, well-meaning friends and family, the media, and ubiquitous advertisements that the underlying problem is a chemical imbalance. Such a simple defect should be fixable, yet despite all of the resources that have been devoted to finding a pharmacological solution, depression remains stubbornly widespread. Why are we losing this fight? In this humane and illuminating challenge to defect models of depression, psychologist Jonathan Rottenberg argues that depression is a particularly severe outgrowth of our natural capacity for emotion. In other words, it is a low mood gone haywire. Drawing on recent developments in the science of mood—and his own harrowing depressive experience as a young adult—Rottenberg explains depression in evolutionary terms, showing how its dark pull arises from adaptations that evolved to help our ancestors ensure their survival. Moods, high and low, evolved to compel us to more efficiently pursue rewards. While this worked for our ancestors, our modern environment—in which daily survival is no longer a sole focus—makes it all too easy for low mood to slide into severe, long-lasting depression. Weaving together experimental and epidemiological research, clinical observations, and the voices of individuals who have struggled with depression, *The Depths* offers a bold new account of why depression endures—and makes a strong case for destigmatizing this increasingly common condition. In so doing, Rottenberg offers hope in the form of his own and other patients' recovery, and points the way towards new paths for treatment.

Reason and Argument Cengage Learning

From Hillary Clinton to Ivanka Trump and from Emma Watson all the way to Beyoncé, more and more high-powered women are unabashedly identifying as feminists in the mainstream media. In the past few years feminism has indeed gained increasing visibility and even urgency. Yet, in her analysis of recent bestselling feminist manifestos, well-trafficked mommy blogs, and television series such as *The Good Wife*, Catherine Rottenberg reveals that a particular variant of feminism—which she calls neoliberal feminism—has come to dominate the cultural landscape, one that is not interested in a mass women's movement or struggles for social justice. Rather, this feminism has introduced the notion of a happy work-family balance into the popular imagination, while transforming balance into a feminist ideal. So-called "aspirational women" are now exhorted to focus on cultivating a felicitous equilibrium between their child-rearing responsibilities and their professional goals, and thus to abandon key goals that have historically informed feminism, including equal rights and liberation. Rottenberg maintains that because neoliberalism reduces everything to market calculations it actually needs feminism in order to "solve" thorny issues related to reproduction and care. She goes on to show how women of color and poor and immigrant women most often serve as the unacknowledged care-workers who enable professional women to strive toward balance, arguing that neoliberal feminism legitimates the exploitation of the vast majority of women while disarticulating any kind of structural critique. It is not surprising, then, that this new feminist discourse has increasingly dovetailed with conservative forces. In Europe, gender parity has been used by Marine Le Pen and Geert Wilders to further racist, anti-immigrant agendas, while in the United States, women's rights has been invoked to justify interventions in countries with majority Muslim populations. And though campaigns such as the #MeToo and #TimesUp appear to be shifting the discussion, given our frightening neoliberal reality, these movements are currently insufficient. Rottenberg therefore concludes by raising urgent questions about how we can successfully reorient and reclaim feminism as a social justice movement.

Widely praised, *ARGUMENTATION AND DEBATE*, 13E, uses a clear, concise, and engaging presentation that makes even complex material easy for students to understand. The authors have adapted the text over the years to match changing practices in debate and teaching while preserving classical and conventional approaches to learning debate. This edition retains its rhetorical roots with a flexible tone open to a diverse array of debate styles that is appropriate in the contemporary context. It values the importance of inclusion and sensitivity to differences of culture, gender, orientation, class and other factors as they impact communicative choices and argumentation. The authors have a preference for team topic

evidence-based policy debate; however, the text strives to offer viable tools for a wide range of readers interested in improving their critical thinking for reasoned decision making. Reconnecting Reading and Writing explores the ways in which reading can and should have a strong role in the teaching of writing in college. *Reconnecting Reading and Writing* draws on broad perspectives from history and international work to show how and why reading should be reunited with writing in college and high school classrooms. It presents an overview of relevant research on reading and how it can best be used to support and enhance writing instruction.

Botany For Dummies Pearson College Division

This book presents a clear and philosophically sound method for identifying, interpreting, and evaluating arguments as they appear in non-technical sources. It focuses on a more functional, real-world goal of argument analysis as a tool for figuring out what is reasonable to believe rather than as an instrument of persuasion. Develops a precise, step-by-step method for analyzing arguments about a variety of topics -- shows how to rewrite arguments in a format that makes them clearer and makes their evaluation easier; and then how to evaluate the rewritten argument. Illustrates methods by applying them to both serious and humorous arguments about different topics as they appear in a variety of contexts — e.g., newspaper and magazine editorials and columns, short essays, informal reports of scientific results, etc. Uses simple, relatively non-controversial examples to illustrate the basic ideas and concepts, and then offers more complicated and controversial examples for challenging applications. For anyone interested in identifying, interpreting, and evaluating arguments as they appear in non-technical sources.

The Structure of Argument Bedford/st Martins

Prophecy is the fundamental idiom of American politics—a biblical rhetoric about redeeming the crimes, suffering, and promise of a special people. Yet American prophecy and its great practitioners—from Frederick Douglass and Henry Thoreau to Martin Luther King, James Baldwin, and Toni Morrison—are rarely addressed, let alone analyzed, by political theorists. This paradox is at the heart of *American Prophecy*, a work in which George Shulman

unpacks and critiques the political meaning of American prophetic rhetoric. In the face of religious fundamentalisms that associate prophecy and redemption with dogmatism and domination, American Prophecy finds connections between prophetic language and democratic politics, particularly racial politics. Exploring how American critics of white supremacy have repeatedly reworked biblical prophecy, Shulman demonstrates how these writers and thinkers have transformed prophecy into a political language and given redemption a political meaning. To examine how antiracism is linked to prophecy as a vernacular idiom is to rethink political theology, recast democratic theory, and reassess the bearing of religion on American political culture. Still, prophetic language is not always liberatory, and American Prophecy maintains a critical dispassion about a rhetoric that is both prevalent and problematic.
