The Works of Elizabeth Gaskell, Part I Vol 3 Cambridge University Press
Critical assessments of Elizabeth Gaskell have tended to emphasise the regional and provincial aspects of her writing, but the scope of her influence extended across the globe. Building on theories of space and place, the contributors to this collection bring a variety of geographical, industrial, psychological, and spatial perspectives to bear on the vast range of Gaskell's literary output and on her place within the narrative of British letters and national identity. The advent of the railway and the increasing predominance of manufactory machinery reoriented the nation's physical and social countenance, but alongside the excitement of progress and industry was a sense of fear and loss manifested through an idealization of the country home, the pastoral retreat, and the agricultural south. In keeping with the theme of progress and change, the essays follow parallel narratives that acknowledge both the angst and nostalgia produced by industrial progress and the excitement and awe occasioned by the potential of the empire. Finally, the volume engages with adaptation and cultural performance, in keeping with the continuing importance of Gaskell in contemporary popular culture far beyond the historical and

cultural environs of nineteenth-century Manchester.

The fascinating and eloquent letters of Meta, Marianne, Florence and Julia Gaskell open a door into the social and cultural lives of a well-connected middle-class Victorian family. Events that impinged on the lives and the letters of these women include the Indian Mutiny, the assassination of Lincoln, the Franco-Prussian War, the Boer Wars and Fenian agitation. They witnessed the effects in England of the American Civil War, and engaged in the religious controversies of the day. They take a close interest in the impact of Darwin's discoveries, discuss the latest news, Ruskin's lectures on Venice, the Pre-Raphaelites, and what it is like to play Beethoven's piano pieces under Sir Charles Hall é 's tuition. They also shed light on the network of Unitarian friends and scholars who undertook the stewardship of Elizabeth Gaskell's writing. This richly annotated edition will appeal to anyone interested in Transatlantic relations, in Mrs Gaskell, in women's networking, in Victorian

ideas and social life, and in the intellectual culture of dissenting circles.

Cranford is one of the better-known novels of the 19th-century English writer Elizabeth Gaskell. It was first published, irregularly, in eight instalments, between December 1851 and May 1853, in the magazine Household Words, which was edited by Charles Dickens. It was then published, with minor revision, in book form in 1853

The Gypsy-bachelor of Manchester Faber & Faber

The Book considers what it meant to be a Unitarian in the hungry forties, what Gaskell understood of Chartism and ' political economy'; and attitudes to women's rights. It discusses the many ambiguities and instabilities in the book - suggesting where the reader may need to take issue with some of the standard critical assumptions about Gaskell's text, and considers how she might be compared to Dickens - and what Dickens learned from her. And it discusses some contemporary (i.e. Victorian) and recent critical approaches to the book. The aim is to leave the reader with a great deal of respect for a novel that is sometimes underestimated - while pointing out some of its real departures from the best practice of Realist writers, practices that Mrs Gaskell herself did much to invent.

The Significance of Fabrics in the Writings of Elizabeth Gaskell Manchester University Press

One of the most brilliant writers of her day, George Eliot (1819-1880) was also one of the most talked about. Intellectual and independent, she had the strength to defy polite society with her highly unorthodox private life, so why did she deny her fictional characters the same opportunities?

The Works of Elizabeth Gaskell, Part I vol 7 Routledge

For much of her own century, Elizabeth Gaskell was recognized as a voice of Victorian convention—the loyal wife, good mother, and respected

writer—a reputation that led to her steady decline in the view of twentieth-century literary critics. Recent scholars, however, have begun to recognize that Mrs. Gaskell's high standing in Victorian society allowed her to effect change in conventional ideology. Linda K. Hughes and Michael Lund focus this reevaluation on issues pertaining to the Victorian literary marketplace. *Victorian Publishing and Mrs. Gaskell's Work* portrays an elusive and self-aware writer whose refusal to grant authority to a single perspective even while she recirculated the fundamental assumptions and debates of her era enabled her simultaneously to fulfill and deflect the expectations of the literary marketplace. While she wrote for money, producing periodical fiction, major novels, and nonfiction, Mrs. Gaskell was able to maintain a tone of warmth and empathy that allowed her to imagine multiple social and epistemological alternatives. Writing from within the established rubrics of gender, narrative, and publication format, she nevertheless performed important cultural work.

Despite feminist reassessments to the contrary, the conventional view that Elizabeth Gaskell personified the Victorian feminine ideal is still very much in place today. Challenging that view in an experimental biography, Felicia Bonaparte proposes that there lived in "Mrs. Gaskell" another, antithetical self, a daemonic double, that was not an angel in the house but instead a creature born to be a "gypsy-bachelor." Bonaparte does not dispute that "Mrs. Gaskell" did exist, but she suggests that Gaskell conceived her, as much as any fictional character, out of a desperate need produced by her childhood experience of rejection and abandonment, in order to gain the love of friends and family and the approval of the world. Gaskell herself, Bonaparte argues, told the story of her double in images encoded in her letters, fiction, and life. Using the methods of literary criticism for biographical ends, Bonaparte traces a pattern of these images, showing how a metaphor that may turn up as a figure of speech in one of Gaskell's letters may be embodied in a character in one of her short stories, dramatized in an incident or plot in one of her novels, and even actualized in an action or a relationship in her life. To reach the inner woman, Bonaparte claims, it is necessary to "read" Gaskell's letters, fiction, and life as a single poetic text. In addition to presenting a radically different interpretation both of Gaskell and of her literary work, Bonaparte's unique approach opens up interesting possibilities in a number of other areas: in the writing of biography, in the analysis of metaphor in the nineteenth-century novel, in the study of the relationship between literature and life, in the exploration of links between the inner and outer self, and in women's studies generally.

Cranford Illustrated University of Virginia Press

This book re-locates Elizabeth Gaskell's 'smaller stories' in the literary and cultural context of the nineteenth century. While Gaskell is recognised as one of the major novelists of her time, the short stories that make up a large proportion of her published work have not yet received the critical attention they deserve. This study re-claims them as an indispensable part of her literary output that enables us to better contextualize and assess her achievement holistically as a highly-skilled woman of letters. The periodicals in which Gaskell's shorter pieces were published offer a microcosm of nineteenth-century society, and Gaskell took full advantage of the medium to apply a consistent and barbed challenge to cultural and gendered constructs of roles and social behaviour. Although her eminently readable prose still flows easily in her short stories, it is less likely to elide the sharp corners of domestic violence, the disabling experiences of women, the pain of death and loss, and the complications of family life.

Nature's Engraver Manchester University Press

Winner of the Portico Prize Shortlisted for the Whitbread Biography of the Year High-spirited, witty and passionate, Elizabeth Gaskell wrote some of the most enduring novels of the Victorian age, including *Mary Barton*, *North and South* and *Wives and Daughters*. This biography traces Elizabeth's youth in rural Knutsford, her married years in the tension-ridden city of Manchester and her wide network of friends in London, Europe and America. Standing as a figure caught up in the religious and political radicalism of nineteenth century Britain, the book looks at how Elizabeth observed, from her Manchester home, the brutal but transforming impact of industry, enjoying a social and family life, but distracted by her need to write down the truth of what she saw. In this widely acclaimed biography, Elizabeth Gaskell emerges as an artist of unrecognized complexity, shrewdly observing the political, religious and feminist arguments of nineteenth century Britain, with enjoyment, passion and wit. Jenny Uglow is the bestselling author of *Nature's Engraver*, which won the National Arts Writers Award, and *A Gambling Man: Charles II and the Restoration*, which was shortlisted for the 2010

Samuel Johnson Prize. Her most recent books include *Nature's Engraver*, the story of Thomas Bewick, and *In These Times*, a history of the home front during the Napoleonic Wars.

Elizabeth Gaskell Routledge

Elizabeth Gaskell's writings abound in references to a cultural materiality encompassing different types of fabric, stuffs, calicoes, chintzes and fine-point lace. These are not merely the motifs of the Realist genre but reveal a complex polysemy. Utilizing a metonymic examination of these tropes, this volume exposes the dramatic structural and socio-economic upheaval generated by industrialization, urbanization and the widening sphere of empire. The material evidence testifies to the technological and production innovations evolving diachronically for the period, and the evolution of Manchester as the industrial 'Cottonpolis' that clothed the world by the 1840s. This volume analyses Gaskell's manipulation of the materiality, arguing its firm roots lie in the quotidian of women's domestic and provincial life within the growing ranks of the middle classes. Exploring Gaskell's tactile imagination, an embodied relationship with fabrics and sewing, a function of her daily life from an early age, this volume provides insight into the sensory aspects of cloth and its ability to stir affective responses, emotions and memories, whereby worn fabrics and even the absence of previous textile treasures, is poignant, recreating layers of recollection. This book aims to restore the pulsating, dynamic context of ordinary women's dressed lives and presents innovative interpretations of Gaskell's texts.

In this beautifully written study, Carolyn Lambert explores the ways in which Elizabeth Gaskell challenges the nineteenth-century cultural construct of the home as a domestic sanctuary offering protection from the external world. Gaskell ' s fictional homes often fail to provide a place of safety: doors and windows are ambiguous openings through which death can enter, and are potent signifiers of entrapment as well as protective barriers. The underlying fragility of Gaskell ' s concept of home is illustrated by her narratives of homelessness, a state she uses to represent psychological, social, and emotional separation. By drawing on novels, letters and non-fiction writings, Lambert shows how Gaskell ' s detailed descriptions of domestic interiors allow for nuanced and unconventional interpretations of character and behaviour, and evince a complex understanding of the significance of home for the construction of identity, gender and sexuality. Lambert ' s Gaskell is an outsider whose own dilemmas and conflicts are reflected in the intricate and multi-faceted portrayals of home in her fiction.
