NATIONAL BESTSELLER "A delectable brew of gothic horror and Hollywood satire . . . [and] what makes all this so much fun is Danforth's deliciously ghoulish voice . . . exquisite." -Ron Charles, THE WASHINGTON POST "A multi-faceted novel, equal parts gothic, sharply funny, sapphic romance, historical, and, of course, spooky." -ENTERTAINMENT WEEKLY Named a Most Anticipated Book by Entertainment Weekly • Washington Post • USA Today • Time • O, The Oprah Magazine • Buzzfeed • Harper's Bazaar • Vulture • Parade • HuffPost • Refinery29 • Popsugar • E! News • Bustle • The Millions • GoodReads • Autostraddle • Lambda Literary • Literary Hub • and more! The award-winning author of The Miseducation of Cameron Post makes her adult debut with this highly imaginative and original horror-comedy centered around a cursed New England boarding school for girls—a wickedly whimsical celebration of the art of storytelling, sapphic love, and the rebellious female spirit Our story begins in 1902, at the Brookhants School for Girls. Flo and Clara, two impressionable students, are obsessed with each other and with a daring young writer named Mary MacLane, the author of a scandalous bestselling memoir. To show their devotion to Mary, the girls establish their own private club and call it the Plain Bad Heroine Society. They meet in secret in a nearby apple orchard, the setting of their wildest happiness and, ultimately, of their macabre deaths. This is where their bodies are later discovered with a copy of Mary's book splayed beside them, the victims of a swarm of stinging, angry yellow jackets. Less than five years later, the Brookhants School for Girls closes its doors forever—but not before three more people mysteriously die on the property, each in a most troubling way. Over a century later, the now abandoned and crumbling Brookhants is back in the news when wunderkind writer Merritt Emmons publishes a breakout book celebrating the queer, feminist history surrounding the "haunted and cursed" Gilded Age institution. Her bestselling book inspires a controversial horror film adaptation starring celebrity actor and lesbian it girl Harper Harper playing the ill-fated heroine Flo, opposite B-list actress and former child star Audrey Wells as Clara. But as Brookhants opens its gates once again, and our three modern heroines arrive on set to begin filming, past and present become grimly entangled—or perhaps just grimly exploited—and soon it's impossible to tell where the curse leaves off and Hollywood begins. A story within a story within a story and featuring black-and-white period-inspired illustrations, Plain Bad Heroines is a devilishly haunting, modern masterwork of metafiction that manages to combine the ghostly sensibility of Sarah Waters with the dark imagination of Marisha Pessl and the sharp humor and incisive social commentary of Curtis Sittenfeld into one laugh-out-loud funny, spellbinding, and wonderfully luxuriant read. "Full of Victorian sapphic romance, metafictional horror, biting misandrist humor, Hollywood intrigue, and multiple timeliness—all replete with evocative illustrations that are icing on a deviously delicious cake." -O, THE OPRAH MAGAZINE

- Learn about how your swimming machine works- Understand why you feel the way you do in practice-

Over 300 illustrations to help you grasp the tough concepts Don't be afraid! This is not biology class, this is swimming class. Your body is a Swimming Machine with a lot of moving parts. Knowing how these all work can help you understand why you feel the way you do at practice, why you train the way you do, and why you race the way you do. Complicated exercise science is translated into simple "picture book" format by Swim Smart founder Karl Hamouche, MD. "Karl's book has helped me understand and even enjoy the very difficult topic of human physiology. I laughed (who knew Glycolysis could be funny?) and I continue to refer to various chapters throughout the season for support and clarification. Karl explains the complexity of the human body in clear, simple language that helps both coaches and athletes get straight to the point: "How can I go fast!?!". For example, last summer I read the Taper chapter to my group three weeks before our big meet and we had the most drama free Taper I've ever been a part of. We had a common language and noticed and named every stage along the way, and this helped all of us feel confident in the process and normalized the sensations that generally trigger uncertainty and doubt. We're doing the same thing with energy systems and I've never had more buy-in with both specific sets and overall cycles because we've got clarity around their purpose. Thank you, Karl, your book has helped me be a better coach!" - Megan Oesting, ASCA Coach of the year 2019, head coach of Eastern Iowa Federation and founder of MOSTswimtech.

Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

This comprehensive text is the first to introduce evocative autoethnography as a methodology and a way of life in the human sciences. Using numerous examples from their work and others, world-renowned scholars Arthur Bochner and Carolyn Ellis, originators of the method, emphasize how to connect intellectually and emotionally to the lives of readers throughout the challenging process of representing lived experiences. Written as the story of a fictional workshop, based on many similar sessions led by the authors, it incorporates group discussions, common questions, and workshop handouts. The book: describes the history, development, and purposes of evocative storytelling; provides detailed instruction on becoming a story-writer and living a writing life; examines fundamental ethical issues, dilemmas, and responsibilities; illustrates ways ethnography intersects with autoethnography; calls attention to how truth and memory figure into the works and lives of evocative autoethnographers.

After studying the basics of pronunciation, students can study the chapters in any order the instructor deems appropriate. The text has been thoughtfully revised based on the feedback of many adopters. The result is a more streamlined presentation with enhanced student learning aids. Organizational changes include the following: all general word parts are grouped together in Unit One; a review chapter on root words is provided in Unit Four, immediately before the body systems; the coverage of body systems in Unit Five closely parallels the content of earlier chapters; and an overview of each body system is included at the beginning of the chapters in Unit Five.
