Document Cameras - ELMO USA | Connecting Minds

An Elmo® document camera is a device typically used for making presentations. It captures images on paper or other formats and can then be used with various other devices to display the captured image. These types of devices are often used with projectors to project an image to a large screen, typically for business meetings or in a classroom.

ELMO Document Cameras | Touchboards

ELMO has also been catering to the Government since the introduction of the first overhead projector. Since then ELMO has been able to push further into this market with the establishment of our CCTV Cameras and now our higher end document cameras. ELMO has document cameras in many government agencies such as, NASA, the FBI and the CIA. Education
