MANAGE BLUE E-MANAGE. Every fuel injection car runs with an ecu to control every operation of the engine. This include controlling the duty cycle of the injector (how long the injector is on, means amount of fuel injected), ignition timing, camshaft profile, and few other. The ecu variable input such as rpm, manifold pressure or the mass air flow.

The GReddy e-manage  
Ultimate is as close to a stand-  
alone management system as  
you can get while maintaining  
the best features of a "piggy-  
back" engine management; an  
economical price, the usage of  
existing sensors, the ability to  
easily alter factory settings and  
not having to tune from  
scratch. But unlike the original e-  
manage, the Ultimate is more  
refined, requiring specific  
application ...

---

Your Emanage guide will show you how to do this. If you have not soldered wires together before it ' s not too hard, just practice off the car with some extra wire and rosin core solder. This is not intended to be a step by step guide, as some basic understanding is assumed, furthermore I take no responsibility for anything that happens to you or your car.
