The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. The Johns Hopkins Guide to Digital Media HarperCollins Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills

the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you ' ll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can ' t find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial

to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk ' s path

to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his re sume , he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world ' s largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has

become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1

Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress,

improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk. [Mr. Emerson's Revolution](#) MIT Press Learn to craft smart, original stories and scripts for a variety of television formats and genres, including comedy, drama, pilots, animation, made-for-TV movies, late night, and reality television. Hear directly from studio and network

executives, agents, and managers on what they 're looking for in new writers and how to avoid common pitfalls. "Walden. Yesterday I came here to live." That entry from the journal of Henry David Thoreau, and the intellectual journey it began, would by themselves be enough to place Thoreau in the American pantheon. His attempt to "live deliberately" in a small woods at the edge of his hometown of Concord has been

a touchstone for individualists and seekers since the publication of *Walden* in 1854. But there was much more to Thoreau than his brief experiment in living at Walden Pond. A member of the vibrant intellectual circle centered on his neighbor Ralph Waldo Emerson, he was also an ardent naturalist, a manual laborer and inventor, a radical political activist, and more. Many books have taken up various aspects of Thoreau's character and achievements, but, as Laura Dassow Walls writes, "Thoreau has never been captured between covers; he was too quixotic, mischievous, many-sided." Two hundred years after his birth, and two

generations after the last full-scale biography, Walls restores Henry David Thoreau to us in all his profound, inspiring complexity. Walls traces the full arc of Thoreau's life, from his early days in the intellectual hothouse of Concord, when the American experiment still felt fresh and precarious, and "America was a family affair, earned by one generation and about to pass to the next." By the time he died in 1862, at only forty-four years of age, Thoreau had witnessed the transformation of his world from a community of farmers and artisans into a bustling, interconnected commercial nation. What did that portend for the contemplative

individual and abundant, wild nature that Thoreau celebrated? Drawing on Thoreau's copious writings, published and unpublished, Walls presents a Thoreau vigorously alive in all his quirks and contradictions: the young man shattered by the sudden death of his brother; the ambitious Harvard College student; the ecstatic visionary who closed Walden with an account of the regenerative power of the Cosmos. We meet the man whose belief in human freedom and the value of labor made him an uncompromising abolitionist; the solitary walker who found society in nature, but also found his own nature in the society of which he

was a deeply interwoven part. And, running through it all, Thoreau the passionate naturalist, who, long before the age of environmentalism, saw tragedy for future generations in the human heedlessness around him. "The Thoreau I sought was not in any book, so I wrote this one," says Walls. The result is a Thoreau unlike any seen since he walked the streets of Concord, a Thoreau for our time and all time. Sincerely, Emerson Vintage "I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be-their

work talked about, quoted, taught, performed, filmed, set to music, anthologized. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves." -Lydia Davis

A MANUAL FOR CLEANING WOMEN compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses

of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place.

This blistering novel—from the bestselling, Pulitzer

Prize – winning author of *The Road*—returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law – in the person of aging,

disillusioned Sheriff Bell – can contain. As Moss tries to evade his pursuers – in particular a mysterious mastermind who flips coins for human lives – McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning’s headlines. No Country for Old Men is a triumph. Alcoholics Anonymous Rowman & Littlefield Eighteen-year-old Jill Cafferty just made

history. Her high school’s star pitcher, she is now the first woman drafted by a major league baseball team. Only days after her high school graduation, she’ll join the Pittsburgh Pirates’ Class A Short Season team . . . but not everyone is happy to have her there. On top of the pressure heaped on every pitcher, Jill must deal with defying conventions and living up to impossible expectations, all while living away from home for the first time. She’ll go head-to-head against those who are determined to keep baseball an all-male sport. Despite the reassurance of coaches and managers alike, a few of her teammates are giving her trouble. The media presence

following her at each game is inescapable. And to top it all off, Jill is struggling with the responsibilities of being a national hero and a role model for young women everywhere. How can she be a role model when she’s not even sure she made the right choice for herself? Didn’t baseball used to be fun? This literary and engrossing story of a young woman trying to mark out a place for herself in a male-dominated world will captivate fans of Friday Night Lights, The Art of Fielding, John Corey Whaley, and Laurie Halse Anderson. 'I am invisible, understand, simply because people refuse to see me.'

Defeated and embittered by a country which treats him as a non-being, the 'invisible man' retreats into an underground cell, where he smokes, drinks, listens to jazz and recounts his search for identity in white society: as an optimistic student in the Deep South, in the north with the black activist group

the Brotherhood, and in the Harlem race riots. And explains how he came to be living underground . . .

'An American classic . . . one of the most original voices of Black America.'

The Times Southern Pulp and Paper Manufacturer Viking

With just a week until Christmas, everyone in the town of Hoboken is looking forward to the big holiday, especially the detectives of the homicide department. But when they come across multiple dead bodies belonging to the two rival gangs, the thought of a holiday vigilante is the last gift they want. To make matters worse, the

unbalanced leader of the Jackals feels that this is the work of the Latin Soldados. And he has every intention on getting revenge.

But the only one who really knows what happened is a high school kid who 's on the run from both gangs and a vigilante who 's looking to clean up the streets.

The detectives are forced to keep the peace between the gangs while hunting down a vigilante who will stop at nothing to finish his mission and protecting an innocent kid in the middle of an oncoming blizzard.

All in a day 's work for the Hoboken Homicide crew.

Think Like a Monk

Simon & Schuster
The first systematic, comprehensive reference covering the ideas, genres, and concepts behind digital media. The study of what is collectively labeled “ New Media ” —the cultural and artistic practices made possible by digital

technology—has become one of the most vibrant areas of scholarly activity and is rapidly turning into an established academic field, with many universities now offering it as a major. The Johns Hopkins Guide to Digital Media is the first comprehensive reference work to which teachers, students, and the curious can quickly turn for reliable information on the key terms and concepts of the field. The contributors present entries on nearly 150 ideas, genres, and theoretical concepts that have allowed digital media to produce some of the most innovative intellectual, artistic, and social practices of our time. The result is

an easy-to-consult reference for digital media scholars or anyone wishing to become familiar with this fast-developing field.

Consumer Credit and the Poor MIT Press

With more than 100 new entries, from Amy Adams, Benedict Cumberbatch, and Cary Joji Fukunaga to Joaquin Phoenix, Mia Wasikowska, and Robin Wright, and completely updated, here from David Thomson— “ The greatest living writer on the movies ” (John Banville, New

Statesman); “ Our most argumentative and trustworthy historian of the screen ” (Michael Ondaatje)—is the latest edition of **The New Biographical Dictionary of Film**, which topped **Sight & Sound** ’ s poll of international critics and writers as **THE BEST FILM BOOK EVER WRITTEN**. 3/7 **The Power of Habit** Cengage Learning A new way of thinking about data science and data ethics that is informed by the ideas of intersectional feminism. Today, data science is a form

of power. It has been used to expose injustice, improve health outcomes, and topple governments. But it has also been used to discriminate, police, and surveil. This potential for good, on the one hand, and harm, on the other, makes it essential to ask: Data science by whom? Data science for whom? Data science with whose interests in mind? The narratives around big data and data science are overwhelmingly white, male, and techno-heroic. In **Data Feminism**, Catherine D'Ignazio and Lauren Klein present a new way of thinking about data science and data ethics—one that is informed by intersectional feminist thought. Illustrating

data feminism in action, D'Ignazio and Klein show how challenges to the male/female binary can help challenge other hierarchical (and empirically wrong) classification systems. They explain how, for example, an understanding of emotion can expand our ideas about effective data visualization, and how the concept of invisible labor can expose the significant human efforts required by our automated systems. And they show why the data never, ever “ speak for themselves. ” Data Feminism offers strategies for data scientists seeking to learn how feminism can help them work toward justice, and for feminists who want to

focus their efforts on the growing field of data science. But Data Feminism is about much more than gender. It is about power, about who has it and who doesn't, and about how those differentials of power can be challenged and changed.
