Extend Your Energy Management Capabilities Managing energy usage via a company network allows you to create an energy management program that can be scaled company-wide, and this unique book shows you just how to do it. Through step-by-step instruction and real-world case studies drawn from the expert author team's own experience at Cisco, this book lays out an IP-based energy management strategy to optimize resources, dramatically increase energy savings, and significantly reduce your carbon footprint. How do you establish energy management across multiple functions, such as compute, network, and storage while preparing for building infrastructure convergence? How do you set up energy domains on a network? How do you bring this all together into one unified energy program then deploy it, manage it, and measure results? Find the answers in this timely guide.

Consider energy in terms of risk, cost, and resource management Gather raw data on where your company is now and set up benchmarking Create strategies across multiple stakeholders and goals, including facilities, IT, security, and sustainability Establish and administer energy domains Review the basics of energy accounting, measure results, and set up reporting See how to make your program sustainable and prepare for the future

The only one-stop resource of every medical supplier licensed to sell products in the US. This edition offers immediate access to over 13,000 companies-and more than 65,000 products - in two information-packed volumes. This comprehensive resource saves hours of time and trouble when searching for medical equipment and supplies and the manufacturers who provide them. Volume I: The Product Directory, provides essential information for purchasing or specifying medical supplies for every medical device, supply, and diagnostic available in the US. Listings provide FDA codes & Federal Procurement Eligibility, Contact information for every manufacturer of the product along with Prices and Product Specifications. Volume 2: Supplier Profiles, offers the most complete and important data about Suppliers, Manufacturers and Distributors. Company Profiles detail the number of employees, ownership, method of distribution, sales volume, net income, key executives, detailed contact information, the medical products the company supplies, plus the medical specialties they cover. Four indexes provide immediate access to this wealth of information: Keyword Index, Trade Name Index, Supplier Geographical Index and OEM (Original Equipment Manufacturer) Index. Medical Device Register is the only one-stop source for locating suppliers and products; looking for new manufacturers or hard-to-find medical devices; comparing products and companies; knowing who's selling what and who to buy from cost effectively. This directory has become the standard in its field and will be a welcome addition to the reference collection of any medical library, large public library, university library, along with the collections that serve the medical community.
