"Drawing on archival research, oral history interviews, and participant observation, this

examination of the adoption and adaptation of Mod style across geographic space also maps its various interpretations over time, from the early 1960s to the present. The book traces the Mod youth culture from its genesis in the dimly lit clubs of London's Soho, where it began as a way for young people to reconfigure modernity after the chaos of World War II, to its contemporary, country-specific expressions. By examining Mod culture in the

United States, Germany, and Japan alongside the United Kingdom, "We Are the Mods" contrasts the postwar development of Mod in those countries that lost the war with those that won. The book illuminates the culture's fashion, music, iconography, and gender aesthetics, to create a compelling portrait of a transnational subculture." --Book Jacket.

Meg Powers is the daughter of the President of the United States. She's about to enter her first year of college. She's living through the worst year of her life. Last June Meg was kidnapped by terrorists – brutalized, starved, and left for dead. She was shackled in a deserted mine shaft and had to smash the bones in her own hand to escape. Meg Powers survived the unthinkable, the stuff of nightmares.

Her terrorist captor is still at large. But still she must live each day. Ahead of her is the grueling physical therapy to heal her broken body; the challenge of leaving the safety of the White House for her freshman year at college. But harder still than the physical and social challenges ahead are her shattered sense of herself and her family. Will she ever forgive her mother, the President, for her "can not, have not and will not negotiate with terrorists" stance – even when it came to her own daughter? And more difficult still, can Meg forgive herself for having the strength, the intelligence and the wit to survive? In a brilliant novel, Ellen Emerson White tells her most ambitious and intense story about a most unlikely but deeply affecting heroine.

THE NATIONAL BESTSELLER New York Times bestselling author Jason Pargin's Zoey Punches the Future in the Dick is the latest—and arguably greatest—sci-fi thriller in the Zoey Ashe Series. In the futuristic city of Tabula Ra\$ā, Zoey Ashe is like a fish so far out of water that it has achieved orbit. After inheriting a criminal empire, the twenty-three year-old finds herself under threat from all sides as a rogue's gallery of larger-than-life enemies think they smell weakness. On the eve of the world's most lavish and ridiculous Halloween celebration, a steamer trunk-sized box arrives at Zoey's door and she is shocked to find that it contains a disemboweled corpse. She is even more shocked when that corpse, controlled by an unknown party, rises and goes on a rampage through the house. Speaking in an electronic voice, it publicly accuses Zoey of being its murderer. This is the

kind of thing that almost never happened at her old job. The city was already a ticking time bomb of publicity-hungry vigilantes with superhuman enhancements and Zoey knows this turn of events is unlikely to improve the situation. Now, she and her team of high-tech tricksters have to solve this bizarre murder while simultaneously keeping Tabula Ra\$ā from descending into chaos. “ Biting humor and blatant digs at modern society overlay a subtly brilliant and thoughtful plot ” (Publishers Weekly) in John Dies at the End author Jason Pargin ’ s first installment of the Zoey Ashe Series, Futuristic Violence and Fancy Suits. Now, “ one of today ’ s great satirists ” (Nerdist) is back with Zoey Punches the Future in the Dick, the second installment in a “ Technicolor tomorrowland. ” (Kirkus Reviews)

Electronics is an ever-changing field with an entrepreneurial spirit and a rich history, populated by some of the world's most famous companies and personalities. The Business of Electronics details the field's complex ecosystem in all its trials and tribulations. It looks at companies such as Apple, IBM, Samsung, and Nokia, as well as now-extinct companies such as Honeywell Bull (France) and Sinclair Computers (UK)

that contributed to technology and business. Sethi shows us how a handful of US companies led the charge in designing equipment that could make millions of small, reliable components; how Nokia started in the timber business; the history of inventors like J.C. Bose, a pioneer in radio communication (who inadvertently made Guglielmo Marconi famous); and why there are numerous companies and creators that never made it or that we have never heard of. This all-encompassing book not only explores the vibrant history of electronics, it uses case studies to examine the companies and people that made history and explain how we ended up where we are today.

Greatest Hits is "An Anthology in Four Volumes" that examines, dissects and satirizes every angle of the pop culture universe: film and television, animation and live-action, rock and jazz music, vinyl records, classic video games, politics and daily life. Writer and artist Daniel Thomas MacInnes delivers his signature style of sharp wit, biting sarcasm, warm nostalgia, and the search for the cultural threads that bring us all together. In Greatest Hits, MacInnes presents, in a incisive collection of essays and personal

stories, the trivial absurdity and profound brilliance of modern life. These include denouncing the media circus surrounding Michael Jackson's untimely death ("Now Watch the Thriller Zombies Chew On the Corpse"), championing the genius of 1970s Miles Davis ("Get Up With It"), conjuring childhood memories of video games ("Seven Cities of Gold"), and celebrating the animated movies of Studio Ghibli ("My Neighbor Totoro," "Spirited Away"). Like everyone's favorite "greatest hits" albums, this book is a fitting portrait of the artist, and a perfect distillation of a singular and irresistible literary voice.
