Capitol Orb Books

The first volume in the Homecoming saga from bestselling author Orson Scott Card, *The Memory of Earth* High above the planet

Harmony, the Oversoul watches. Its task, programmed so many millennia ago, is to guard the human settlement on this planet--to protect this fragile remnant of Earth from all threats. To protect them, most of all, from themselves. The Oversoul has done its job well. There is no war on Harmony. There are no weapons of

mass destruction.
There is no technology that could lead to weapons of war. By control of the data banks, and subtle interference in the very thoughts of the people, the artificial intelligence has fulfilled its mission. But now there is a problem. In orbit, the Oversoul realizes that it has lost access to some of its memory banks, and some of its power systems are failing. And on the planet, men are beginning to think about power, wealth, and conquest.

Lost and Found
Tor Books
Using the lore and the folk-magic of the men and women who settled North America, Orson Scott Card has created an alternate world where magic works, and where that magic has colored the entire history of the colonies. Charms and beseechings, hexes and potions, all have a place in the lives of the people of this world. Dowsers find water, the second sight warns of dangers to come, and a torch can read a person's future---or their heart. In this world where "knacks" abound, Alvin, the seventh son of a seventh

son, is a very special man indeed. He's a Maker; he has the knack of understanding how things are put together, how to create them, repair them, keep them whole, or tear them down. He can heal hearts as well as bones, he build a house, he can calm the waters or blow up a storm. And he can teach his knack to others, to the measure of their own talent. Alvin has been trying to avert the terrible war that his wife, Peggy, a torch of extraordinary power, has seen down the life-lines of every American. Now she has sent him down the Mizzippy to the city of New Orleans, or Nueva Barcelona as they call it under Spanish occupation. Alvin doesn't know exactly why he's there, but when he and his brother-in-law, Arthur Stuart, find lodgings with a family of abolitionists who know Peggy, he suspects he'll find out soon. But Nueva Barcelona is about to experience a plague, and Alvin's efforts to protect his friends by keeping them healthy will create more danger than he could ever have suspected. And in saving the poor people of the city, Alvin will be put to the greatest test of his life---a test that will draw on all his power. For the time has come for him to turn to his old friend Tenskwa-Tawa, the Red Prophet who controls the lands to the west of the Mizzippy. Now Alvin must take the first steps on the road to the Crystal City that was shown to him in a vision

Earth Unaware Tor Books
A dark and powerful fantasy
from the bestselling author of
Ender's Shadow. Enter the city
of Hart's Hope, ruled by gods
both powerful and indifferent,
riddled with sorcery and revenge.
The city was captured by a
rebellious lord, Palicrovol, who
overthrew the cruel king, Nasilee,
hated by his people. Palicrovol,
too, was cruel, as befitted a king.
He took the true mantle of
kinghood by forcing Asineth,
now Queen by her father's
death, to marry him, raping her
to consummate the marriage.
[But he was not cruel enough to
rule.] He let her live after her
humiliation; live to bear a

daughter; live to return from exile
and retake the throne of Hart's
Hope. But she, in turn, sent
Palicrovol into exile to breed a
son who would, in the name of
the God, take back the kingdom
from its cruel Queen.

Empire (In Her Name, Book 4) Tor Books Widely acclaimed, hugely successful speculative-fiction author Orson Scott Card takes another step into the mainstream with an extremely chilling, vastly engaging novel that sets the notion of family values on its head and chronicles a man's transformation from hermit to hero. When Quentin Fears was 10, his sister left this world, the

victim of a car accident. Her death made him withdraw from this world too -- into books, away from people. By the time he reaches adulthood, Quentin has become a certifiable recluse, moving restlessly from town to town, investing the millions he's made as a software creator and avoiding companionship. It's odd but maybe inevitable that on a rare outing to a party he should meet his dream woman, Madeleine. She's witty and beautiful and as naive to the world's ways as he is, and they marry in a matter of weeks. Their relationship seems idyllic but for

one thing -- the ultimate evil.

Orson Scott Card's *The Last Shadow* is the long-awaited conclusion to both the original *Ender* series and the *Ender's Shadow* series, as the children of *Ender* and *Bean* solve the great problem of the *Ender Universe*—the deadly virus they call the *descolada*, which is incurable and will kill all of humanity if it is allowed to escape from *Lusitania*. One planet. Three sapient species living peacefully together. And one

deadly virus that could wipe out every world in the *Starways Congress*, killing billions. Is the only answer another great *Xenocide*? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

From the acclaimed author of *Fine Prey*, *Polymorph*, and *Evolution's Darling* (Philip K. Dick Award special citation and a *New York Times Notable Book*) comes a sweeping epic, *The Risen Empire*, Scott Westerfeld's dazzling hardcover debut. The undead Emperor has ruled his mighty interstellar empire of eighty human worlds

for sixteen hundred years. Because he can grant a form of eternal life, creating an elite known as the Risen, his power has been absolute. He and his sister, the Child Empress, who is eternally a little girl, are worshiped as living gods. No one can touch them. Not until the Rix, machine-augmented humans who worship very different gods: AI compound minds of planetary extent. The Rix are cool, relentless fanatics, and their only goal is to propagate such AIs throughout the galaxy. They seek to end, by any means necessary, the Emperor's prolonged tyranny of one and supplant it with an eternal cybernetic dynasty of their own. They begin by taking the Child

Empress hostage. Captain Laurent Zai of the Imperial Frigate Lynx is tasked with her rescue. Separated by light-years, bound by an unlikely love, Zai and pacifist senator Nara Oxham must each in their own way, face the challenge of the Rix, and they each will hold the fate of the empire in their hands. The Risen Empire is the first great space opera of the twenty-first century. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Invasive Procedures

When the American dream shatters into violence, who can hold the people and the government

together? And which side will you be on? The American Empire has grown too fast, and the fault lines at home are stressed to the breaking point. The war of words between Right and Left has collapsed into a shooting war, though most people just want to be left alone. Orson Scott Card is a master storyteller, who has earned millions of fans and reams of praise for his previous science fiction and fantasy novels. Now he steps a little closer to the present day with this chilling look at a near future scenario of a new American Civil War. Empire – Battle with high-technology weapons versus militia foot-soldiers, devastating the cities, and overrunning the countryside. But the vast majority, who only want the killing to stop and the nation to return to more peaceful days, have technology, weapons and strategic geniuses of their own. Hidden Empire – A deadly plague devastating the world leads the American President to declare severe immigration restriction. Captain Batholomew Coleman must navigate a hostile population, while protecting researchers, in the hopes of finding a cure. Tor books by Orson Scott Card Ender Universe Ender

A hundred years before Ender's Game, humans thought they were alone in the galaxy. Humanity was

slowly making their way out from Earth to the planets and asteroids of the Solar System, exploring and mining and founding colonies. The mining ship El Cavador is far out from Earth, in the deeps of the Kuiper Belt, beyond Pluto. Other mining ships, and the families that live on them, are few and far between this far out. So when El Cavador's telescopes pick up a fast-moving object coming in-system, it's hard to know what to make of it. It's massive and moving at a significant fraction of the speed of light. Ender Saga 01. Ender's Game Tor Books

The city states of the Lowlands have lived in peace for decades, bastions of civilization, prosperity and sophistication, protected by treaties, trade and a belief in the reasonable nature of their neighbors. But meanwhile, in far-off corners, the Wasp Empire has been devouring city after city with its highly trained armies, its machines, it killing Art . . . And now its hunger for conquest and war has become insatiable. Only the aging Stenwold Maker, spymaster, artificer and statesman, can see that the long days of

peace are over. It falls upon his shoulders to open the eyes of his people, before a black-and-gold tide sweeps down over the Lowlands and burns away everything in its path. But first he must stop himself from becoming the Empire's latest victim.
