The Fate of Empires Penguin

A nobleman's daughter with magic in her blood. An empire built on the dreams of enslaved gods. Empire of Sand is Tasha Suri's lush, dazzling, Mughal India-inspired fantasy debut. "An ode to the quiet, fierce strength of women...pure wonder." --

Samantha Shannon, NYT bestselling author of *The Priory of the Orange Tree* "A darkly intricate, devastating, and utterly original story." -- R. F. Kuang, author of *The Poppy War* "Stunning and enthralling." -- S. A.

Chakraborty, author of *The City of Brass* The Amrithi are outcasts; nomads descended of desert spirits, they are coveted and persecuted throughout the Empire for the power in their blood. Mehr is the illegitimate daughter of an imperial governor and an exiled Amrithi mother she can barely remember, but whose face and magic she has inherited. When Mehr's power comes to the attention of the Emperor's most feared mystics, she must use every ounce of will, subtlety, and power she possesses to resist their cruel agenda. Should she fail, the gods themselves may awaken seeking vengeance... The Books of Ambha Empire of Sand Realm of Ash

Liberty and Power

Northwestern University Press Ernest Renan was one of the leading lights of the Parisian intellectual scene in the second half of the nineteenth century. A philologist, historian, and biblical scholar, he was a prominent voice of French liberalism and secularism.

Today most familiar in the English-speaking world for his 1882 lecture "What Is a Nation?" and its definition of a nation as an "everyday plebiscite," Renan was a major figure in the debates surrounding the Franco-Prussian War, the Paris Commune, and the birth of the Third Republic and had a profound influence on thinkers across the political spectrum who grappled with the problem of authority and social organization in the new world wrought by the forces of modernization. *What Is a Nation? and Other Political Writings* is the first English-language anthology of Renan's political thought. Offering a broad selection of Renan's writings from several periods of his public life, most previously untranslated, it restores Renan to his place as one of France's major liberal thinkers and gives vital critical context to his views on nationalism. The anthology illuminates the characteristics that distinguished nineteenth-century French liberalism from its English and American counterparts as well as the more controversial parts of Renan's legacy, including his analysis of colonial expansion, his views on Islam and Judaism, and the role of race in his thought. The volume contains a critical introduction to Renan's life and work as well as detailed annotations that assist in recovering the wealth and

complexity of his thought. Europe after Empire Empires, Nations, and Families

A fresh history of the West grounded in the lives of mixed-descent Native families who first bridged and then collided with racial boundaries. Often overlooked, there is mixed blood at the heart of America. And at the heart of Native life for centuries there were complex households using intermarriage to link disparate communities and create protective circles of kin. Beginning in the seventeenth century, Native peoples—Ojibwes, Otoes, Cheyennes, Chinooks, and others—formed new families with young French, English, Canadian, and American fur traders who spent months in smoky winter lodges or at boisterous summer rendezvous. These families built cosmopolitan trade centers from Michilimackinac on the Great Lakes to Bellevue on the Missouri River, Bent's Fort in the southern Plains, and Fort Vancouver in the Pacific Northwest. Their family names are often imprinted on the landscape, but their voices have long been muted in our histories. Anne F. Hyde's pathbreaking history restores them in full. Vividly combining the panoramic and the particular, *Born of Lakes and Plains* follows five mixed-descent families whose lives intertwined major events: imperial battles over the fur trade; the first extensions of American authority west of the Appalachians; the ravages of imported disease; the violence of Indian removal; encroaching American settlement; and, following the Civil War, the disasters of Indian war, reservations policy, and allotment. During the pivotal nineteenth century, mixed-descent people who had once occupied a middle ground became a racial problem drawing hostility from all sides. Their identities were challenged by the pseudo-science of blood quantum—the instrument of allotment policy—and their traditions by the Indian schools established to erase Native ways. As Anne F. Hyde shows, they navigated the hard choices they faced as they had for centuries: by relying on the rich resources of family and kin. Here is an indelible western history with a new human face.

Empires in World History Princeton University Press

"In this extraordinary volume, Krishan Kumar provides us with a brilliant tour of some of history's most important empires,

demonstrating the critical importance of imperial ideas and ideologies for understanding their modalities of rule and the conflicts that beset them. In doing so, he interrogates the contested terrain between nationalism and empire and the legacies that empires leave behind."--Mark R. Beissinger, Princeton University "This is an excellent book with original insights into the history of empires and the discourses and rhetoric of their rulers and defenders. Kumar's writing is lively and free of jargon, and his research is prodigious. He manages to bring clarity and perspective to a complex subject."--Ronald Grigor Suny, author of "They Can Live in the Desert but Nowhere Else": A History of the Armenian Genocide "A masterly piece of work."--Anthony Pagden, author of *The Burdens of Empire: 1539 to the Present* Empire to Nation U of Nebraska Press

WINNER OF THE BANCROFT PRIZE • A Pulitzer Prize finalist that's as unsettling as it is enlightening: a book that brilliantly weaves together the story of cotton with how the present global world came to exist. "Masterly ... An astonishing achievement." —The New York Times The empire of cotton was, from the beginning, a fulcrum of constant global struggle between slaves and planters, merchants and statesmen, workers and factory owners. Sven Beckert makes clear how these forces ushered in the world of modern capitalism, including the vast wealth and disturbing inequalities that are with us today. In a remarkably brief period, European entrepreneurs and powerful politicians recast the world's most significant manufacturing industry, combining imperial expansion and slave labor with new machines and wage workers to make and remake global capitalism.

Empire of Sand Rowman & Littlefield "Deftly written, gripping and informative. Empire of Wild is a rip-roaring read!" —Margaret Atwood, From Instagram "Empire of Wild is doing everything I love in a contemporary novel and more. It is tough, funny, beautiful, honest and propulsive—all the while telling a story that needs to be told by a person who needs to be telling it." —Tommy Orange, author of *There There* A bold and brilliant new indigenous voice in contemporary literature makes her American debut with this kinetic,

imaginative, and sensuous fable inspired by the traditional Canadian M é t i s legend of the Rogarou—a werewolf-like creature that haunts the roads and woods of native people's communities. Joan has been searching for her missing husband, Victor, for nearly a year—ever since that terrible night they'd had their first serious argument hours before he mysteriously vanished. Her M é t i s family has lived in their tightly knit rural community for generations, but no one keeps the old ways . . . until they have to. That moment has arrived for Joan. One morning, grieving and severely hungover, Joan hears a shocking sound coming from inside a revival tent in a gritty Walmart parking lot. It is the unmistakable voice of Victor. Drawn inside, she sees him. He has the same face, the same eyes, the same hands, though his hair is much shorter and he's wearing a suit. But he doesn't seem to recognize Joan at all. He insists his name is Eugene Wolff, and that he is a reverend whose mission is to spread the word of Jesus and grow His flock. Yet Joan suspects there is something dark and terrifying within this charismatic preacher who professes to be a man of God . . . something old and very dangerous. Joan turns to Ajean, an elderly foul-mouthed card shark who is one of the few among her community steeped in the traditions of her people and knowledgeable about their ancient enemies. With the help of the old M é t i s and her peculiar Johnny-Cash-loving, twelve-year-old nephew Zeus, Joan must find a way to uncover the truth and remind Reverend Wolff who he really is . . . if he really is. Her life, and those of everyone she loves, depends upon it.

Empire of Cotton Macmillan A fascinating story that offers a striking interpretation of the origins, progress, and effects of the American Revolution. *The Early Chinese Empires* Simon and Schuster

To most people living in the West, the Louisiana Purchase made little difference: the United States was just another imperial overlord to be assessed and manipulated. This was not, as *Empires, Nations, and Families* makes clear, virgin wilderness discovered by virtuous Anglo entrepreneurs. Rather, the United States was a newcomer in a place already complicated by vying empires. This book documents the broad family associations that crossed national and ethnic lines

and that, along with the river systems of the trans-Mississippi West, formed the basis for a global trade in furs that had operated for hundreds of years before the land became part of the United States. ø *Empires, Nations, and Families* shows how the world of river and maritime trade effectively shifted political power away from military and diplomatic circles into the hands of local people. Tracing family stories from the Canadian North to the Spanish and Mexican borderlands and from the Pacific Coast to the Missouri and Mississippi rivers, Anne F. Hyde's narrative moves from the earliest years of the Indian trade to the Mexican War and the gold rush era. Her work reveals how, in the 1850s, immigrants to these newest regions of the United States violently wrested control from Native and other powers, and how conquest and competing demands for land and resources brought about a volatile frontier culture?not at all the peace and prosperity that the new power had promised.

Worldmaking After Empire Harvard University Press

In *War and Peace and War*, Peter Turchin uses his expertise in evolutionary biology to offer a bold new theory about the course of world history. Turchin argues that the key to the formation of an empire is a society's capacity for collective action. He demonstrates that high levels of cooperation are found where people have to band together to fight off a common enemy, and that this kind of cooperation led to the formation of the Roman and Russian empires, and the United States. But as empires grow, the rich get richer and the poor get poorer, conflict replaces cooperation, and dissolution inevitably follows. Eloquently argued and rich with historical examples, *War and Peace and War* offers a bold new theory about the course of world history with implications for nations today. *Visions of Empire* U of Nebraska Press

Introduction : rethinking European kinship : transregional and transnational families / David Warren Sabean and Simon Teuscher -- The

historical emergence and massification of international families in Europe and its diaspora / Jose C. Moya -- The medieval and early modern experience -- Mamluk and Ottoman political households : an alternative model of "kinship" and 'family' / Gabriel Piterberg -- From local signori to European high nobility : the Gonzaga family networks in the fifteenth century / Christina Antenhofer -- Property regimes and migration of patrician families in western Europe around 1500 / Simon Teuscher -- Trans-dynasticism at the dawn of the modern era : kinship dynamics among ruling families / Michaela Hohkamp -- Marriage, commercial capital, and business agency : transregional Sephardic (and Armenian) families in the seventeenth- and eighteenth-century Mediterranean / Francesca Trivellato -- Those in between : princely families on the margins of the great powers : the Franco-German frontier, 1477-1830 / Jonathan Spangler -- Spiritual kinship : the Moravians as an international fellowship of brothers and sisters (1730s-1830s) / Gisele Mettele -- Modernity -- Families of empires and nations : Phanariot Hanedans from the Ottoman Empire to the world around it (1669-1856) / Christine Philliou -- Into the world : kinship and nation-building in France, 1750-1885 / Christopher H. Johnson -- German international families in the nineteenth century : the Siemens -- Family as a thought experiment / David Warren Sabean -- The culture of Caribbean migration to Britain in the 1950s / Mary -- Chamberlain -- Exile, familial ideology, and gender roles in Palestinian camps in Jordan since 1948 / Stephanie Latte Abdallah -- Mirror image of family relations : social links between patel migrants in Britain and India / Mario Rutten and Pravin J. Patel.

Making a Modern U.S. West Cambridge University Press
A new perspective on the nineteenth-century imperial world through one family's history across North America, the Caribbean and United Kingdom. Revealing how these figures demonstrate complicated historical trajectories of empire and nation, Adele Perry illustrates how gender, intimacy, and family were key to making and remaking imperial politics.

The Sugar Barons Anchor
Traces the rise and fall of Caribbean sugar dynasties, discussing the Britain's dependence on colony wealth, the role of slavery in sugar plantation culture, and the North

American colonial opposition to sugar policy in London.

Colony and Empire HarperCollins
The Fate of Empires: Being an Inquiry into the Stability of Civilisation by Arthur John Hubbard, first published in 1913, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.
Empire of the Summer Moon Penguin
Lauren Benton and Lisa Ford find the origins of international law in empires, especially in the British Empire 's sprawling efforts to refashion the imperial constitution and reorder the world. These attempts touched on all the issues of the early nineteenth century, from slavery to revolution, and changed the way we think about the empire 's legacy.

Promised Lands Cambridge University Press
Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States ' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In How to Hide an Empire, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano Islands, where prospectors collected one of the nineteenth century 's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr

notes, the United States moved away from colonialism. Instead, it put innovations in electronics, transportation, and culture to use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, How to Hide an Empire is a major and compulsively readable work of history.

China Between Empires Penguin
Family and Civilization is the magnum opus of Carle Zimmerman, a distinguished sociologist who taught for many years at Harvard University. In this unjustly forgotten work Zimmerman demonstrates the close and causal connections between the rise and fall of different types of families and the rise and fall of civilizations, particularly ancient Greece and Rome, medieval and modern Europe, and the United States. Zimmerman traces the evolution of family structure from tribes and clans to extended and large nuclear families to the small nuclear families and broken families of today. And he shows the consequences of each structure for the bearing and rearing of children; for religion, law, and everyday life; and for the fate of civilization itself. Originally published in 1947, this compelling analysis predicted many of today 's cultural and social controversies and trends, including youth violence and depression, abortion and homosexuality, the demographic collapse of Europe and of the West more generally, and the displacement of peoples. This new edition, part of ISI Books ' Background series, has been edited and abridged by cultural commentator James Kurth of Swarthmore College and includes essays on the text by Kurth, Allan Carlson, and Bryce Christensen.

Harvest of Empire University of Washington Press
Empires, Nations, and Families U of Nebraska Press
Empires, Nations, and Families Harvard University Press
"Compelling, provocative, and learned. This book is a stunning and sophisticated reevaluation of the American empire. Hopkins tells an old story in a truly new way--American history will never be the same again."--Jeremi Suri, author of The Impossible Presidency: The Rise and Fall of America's Highest Office.Office.

The Family in Italy from Antiquity to the Present Berghahn Books
After the collapse of the Han dynasty in the third century CE, China divided along a north-south line. Mark Lewis traces the changes that both underlay and resulted from this split in a period that saw the geographic redefinition of China, more engagement with the outside world, significant changes to family life,

developments in the literary and social arenas, and the introduction of new religions. The Yangzi River valley arose as the rice-producing center of the country. Literature moved beyond the court and capital to depict local culture, and newly emerging social spaces included the garden, temple, salon, and country villa. The growth of self-defined genteel families expanded the notion of the elite, moving it away from the traditional great Han families identified mostly by material wealth. Trailing the rebel movements that toppled the Han, the new faiths of Daoism and Buddhism altered every aspect of life, including the state, kinship structures, and the economy. By the time China was reunited by the Sui dynasty in 589 ce, the elite had been drawn into the state order, and imperial power had assumed a more transcendent nature. The Chinese were incorporated into a new world system in which they exchanged goods and ideas with states that shared a common Buddhist religion. The centuries between the Han and the Tang thus had a profound and permanent impact on the Chinese world.

American Empire Oxford University Press

Provides historical and anthropological perspectives on the Western family, focusing on family life in Italy from the Roman Empire to the present. Topics covered include marriage, divorce, matchmaking, inheritance, sexual mores, celibacy, adoption and property rights.
