Tort in a Nutshell Hong Kong Employment Law A Practical Guide How can you get to the bottom of workplace behaviors that simply don't work for you or your organization? Don't Bring It to Work explores what happens when patterns originally created to cope with family conflicts are unleashed in the workplace.? This groundbreaking book draws on the success of Sylvia Lafair's PatternAware program

Total Leadership Connections. Throughout the book she shows how to break the cycle of pattern repetition and offers the tools that can turn unhealthy family baggage into creative energy that will foster better workplace associations and career success. Lafair identifies the thirteen most common patterns that correspond to characters familiar to anyone who has ever worked in an office: Super Achiever, Rebel, Persecutor, Victim, Rescuer, Clown, Martyr, Splitter, Procrastinator, Drama Queen or King, Pleaser, Denier, and Avoider. To help overcome destructive behavior problems, she maps out the three main steps for becoming aware of

patterns and finding the way OUT: Observe your behavior to discern underlying patterns Understand and probe deeper to discover the origins of these patterns Transform your behavior by taking action to change The book includes a wealth of real-life anecdotes and practical, workbook-style exercises that clearly show how anyone can get beyond old, outmoded attempts at conflict resolution and empower themselves to make profound differences both at work and in their personal lives.

Employment Law and Practice in Hong Kong Prometheus Books

This book identifies eight key mechanisms that can transform a set of ideas into a psychological flytrap. The

author suggests that, like the black holes of outer space, from which nothing, not even light, can escape, our contemporary cultural landscape contains numerous intellectual black-holes—belief systems constructed in such a way that unwary passers-by can similarly find themselves drawn in. While such self-sealing bubbles of belief will most easily trap the gullible or poorly educated, even the most intelligent and educated of us are potentially vulnerable. Some of the world's greatest thinkers have fallen in, never to escape. This witty, insightful critique will help immunize readers against the wiles of cultists, religious and political zealots, conspiracy theorists, promoters of flaky alternative medicines, and others by clearly setting out the tricks of the trade by which such insidious belief systems are created and maintained.

Inside Graduate Admissions Penguin

the emperor Nero is etched into the Western imagination as one of ancient Rome's most infamous villains, and Tacitus' Annals have played a central role in shaping the mainstream historiographical understanding of this flamboyant autocrat. This section of the text plunges us straight into the moral cesspool that Rome had apparently become in the later years of Nero's reign, chronicling the emperor's

fledgling stage career including his plans for a grand tour of Greece; his participation in a city-wide orgy climaxing in his publicly consummated 'marriage' to his toy boy Pythagoras; the great fire of AD 64, during which large parts of central Rome went up in flames; and the rising of Nero's 'grotesque' new palace, the so-called 'Golden House', from the ashes of the city. This building project stoked the rumours that the emperor himself was behind the conflagration, and Tacitus goes on to present us with Nero's gruesome efforts to quell these mutterings by scapegoating and executing members of an unpopular new cult then starting to spread through the Roman empire: Christianity. All this contrasts starkly with four chapters focusing on one of Nero's most principled opponents, the Stoic senator Thrasea Paetus, an audacious figure of moral fibre, who courageously refuses to bend to the forces of imperial corruption and hypocrisy. This course book offers a portion of the original Latin text, study aids with vocabulary, and a commentary. Designed to stretch and stimulate readers, Owen's and Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis and historical background to encourage critical engagement with Tacitus' prose and discussion of the most recent scholarly thought.

Idiots in the Golden State Sweet & Maxwell Six-time New York Times bestselling author, FOX News star, and radio host Mark R. Levin “trounces the news media” (The Washington Times) in this timely and groundbreaking book demonstrating how the great tradition of American free press has degenerated into a standardless profession that has squandered the faith and trust of the public. Unfreedom of the Press is not just

another book about the press. In “Levin’s finest work” (Breitbart), he shows how those entrusted with news reporting today are destroying freedom of the press from within—not through actions of government officials, but with its own abandonment of reportorial integrity and objective journalism. With the depth of historical background for which his books are renowned, Levin takes you on a journey through the early American patriot press, which proudly promoted the principles set forth in the Declaration of Independence and the Constitution. This is followed by the early

decades of the Republic during which newspapers around the young country were open and transparent about their fierce allegiance to one political party or another. It was only at the start of the Progressive Era and the 20th century that the supposed “objectivity of the press” first surfaced, leaving us where we are today: with a partisan party-press overwhelmingly aligned with a political ideology but hypocritically engaged in a massive untruth as to its real nature.

Best-selling author
Leland Gregory--who
has so entertainingly
highlighted humanity's
stupidity in the areas of

crime, business, love,
politics, cruelty, and
history--is back with
Stupid California. This
time, Gregory builds a
case for the common
suspicion that
Californians, from movie
moguls to beach bums,
have a special affinity for
idiocy. Culled from print,
online, and broadcast
sources, Stupid California
is a hilarious collection of
true stories, trivia, and
factoids about the Golden
State, such as: *

"California's state animal
is the California grizzly
bear, which is also on the
state flag. The bear was
honored in 1953, a full 31
years after the last
known bear in the state
was killed." * "During the
1980s, in a bold stroke
against terrorism, the
Chico City Council
banned nuclear weapons,
enacting a mandatory

\$500 fine for anyone detonating a nuclear weapon within city limits." Silly, shocking, weird, and amusing, Stupid California is ideal for both kinds of people--those who love California and those who hate it.

From the #1 New York Times bestselling author of *Small Great Things* and the modern classics *My Sister's Keeper*, *The Storyteller*, and more, comes a "complex, compassionate, and smart" (*The Washington Post*) novel about a family torn apart by a murder accusation. When your son can't look you in the eye...does that mean he's guilty? Jacob Hunt is a teen with Asperger's syndrome. He's hopeless at reading social cues or expressing himself well to others, though he is brilliant in many ways. He has a special focus on one subject—forensic analysis. A police

scanner in his room clues him in to crime scenes, and he ' s always showing up and telling the cops what to do. And he ' s usually right. But when Jacob ' s small hometown is rocked by a terrible murder, law enforcement comes to him. Jacob ' s behaviors are hallmark Asperger ' s, but they look a lot like guilt to the local police. Suddenly the Hunt family, who only want to fit in, are thrust directly in the spotlight. For Jacob ' s mother, it ' s a brutal reminder of the intolerance and misunderstanding that always threaten her family. For his brother, it ' s another indication why nothing is normal because of Jacob. And for the frightened small town, the soul-searing question looms: Did Jacob commit murder?

House Rules is “ a provocative story in which [Picoult] explores the pain of trying to comprehend the people we love—and reminds us that the truth often travels in disguise ” (People).

A Policy at War With Itself

It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling

read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States- which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean- it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future

attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts- it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7- it is nevertheless an essential record of one of the most transformational events of modern times.
