The definitive story of the Dennis Nilsen case featured in Netflix's *Memories of a Murder: The Nilsen Tapes*, and the book behind ITV's *Des*, starring David Tennant ***WINNER OF THE GOLD DAGGER AWARD FOR CRIME NON-FICTION and THE NUMBER ONE SUNDAY TIMES BESTSELLER***

_____ Dennis Nilsen, who died in May 2018, admitted to killing at least 15 people before his arrest in 1983. This ground-breaking criminal study of his killings was written with Nilsen's full cooperation, resulting in a fascinating - and horrifying - portrait of the man who worshipped death. In February 1983, residents of Muswell Hill had been plagued by blocked drains. When a plumber was called to investigate, he discovered a large blockage of biological material. To his horror, it appeared to be formed of human flesh and bones. The next day, local resident Dennis Nilsen was arrested. 'Are we talking about one body or two?' a detective asked. Nilsen replied 'Fifteen or sixteen, since 1978. I'll tell you everything.' Within days he had confessed to fifteen gruesome murders over a period of four years. His victims, mostly young gay men at a time when society cared little for them, had been overlooked. Killing for Company is a unique study of a murderer's mind, essential reading for true crime aficionados.

_____ 'You really have to read this extraordinary book to get a full flavour of the weirdness of Nilsen and his crimes' SUNDAY TIMES 'A seminal look into the criminal mind' DAILY MAIL 'Brian Masters has given us a full, well-ordered, dispassionate account of Nilsen's life and crimes' THE TIMES 'Without any doubt one of the most remarkable, complete and most humanely informative accounts of a murderer's mind ever achieved... the book is far superior to any previous English book of its kind and deserves to serve as a model for all future attempts in this genre' NEW SOCIETY 'The book is a perceptive and at times coldly brutal assessment of Nilsen's psychology' MIRROR 'A comprehensive and compelling account' FINANCIAL TIMES 'Probably the best thing of its kind since In Cold Blood... a classic study in criminal mentality' YORKSHIRE POST 'Killing For Company must stand as one of the most remarkable and accurate accounts ever written of the singular relationship between a mass murderer and a society... a bloody masterpiece.' BERYL BAINBRIDGE 'A truly awesome tale, brilliantly told' LITERARY REVIEW 'A meticulous study of the dark intricacies of the human mind' THE BOOKBAG 'Brian Masters can rest assured that the job he undertook with such obvious doubts was one worth doing' SPECTATOR 'Masters has written an extraordinary book, and his achievement has been the ability to recount horrific details without descending to the lurid sensationalism of the instant books and Fleet Street reports' POLICE 'A compelling and remarkable book ... through Masters' fine writing the reader suspends his nausea for the crimes, and concentrates with Nilsen on his motives and himself' THE LISTENER

[America's First Female Serial Killer](#) Random House Raising a Serial Killer A Father's Search for Answers In July of 1991 the country was shocked by the unfathomable crimes of serial killer Jeffrey Dahmer. But no one was more shocked than his parents. In *A Father's Story*, the reader is witness to the incremental unraveling of a parent's image of their child, and the "thousand different reactions" that follow. In his attempt to understand the nature of his son's psychosis, Lionel Dahmer methodically scrutinizes every possible contributing factor to his son's madness. His desperation is palpable as he searches for clues in the emotional, psychological, and genetic landscape of his son's life. Riveting and soul-wrenching, this unprecedented memoir is the confession of a father who must "confront the saddest truth a human can know-that his child has somehow crossed the line that separates the human from the monstrous."

Canada is seen as a peaceful place, but this wake-up call shows us that there have been more than 60 serial killers in our history. Limited time offer. There are more than 60 serial murderers in Canadian history. For too long awareness of serial murder in Canada has been confined to West Coast butcher Clifford Olson and the "Schoolgirl Murderers" Paul Bernardo and Karla Homolka, along with the horrific acts of pig farmer Robert Pickton. Unlike our American neighbours, Canada has been viewed as a nation untouched by the shadow of multiple murder. Then came Colonel Russell Williams and his bizarre homicides and serial home invasions, which were sensational news worldwide on the Internet and television and in scores of newspapers and magazines. The reason for Canada's serial killer blackout is clear: until now such information has never been compiled and presented in a single concise work. *Cold North Killers* is a wake-up call. This detailed and haunting account of Canada's worst monsters analyzes their crimes, childhoods, and inevitable downfalls. It is an indispensable compendium for any true crime lover, criminologist, or law-enforcement officer.

In 1958, a shy young man with few social skills sped along the Santa Ana freeway out of L.A. headed to the desert with his 'date' huddled in the passenger seat beside him. In his pockets, Harvey Glatman had a gun and a length of rope. Drunk on power, arousal, and rage, Harvey also had a plan. And beneath the desert stars, by the light of the moon, he carried out his ordeal of unimaginable cruelty, using his body, a camera and his rope... Months later, after one of his inhuman attacks went awry, Harvey's torture killings were described to a shocked and silent California courtroom. Michael Newton vividly recounts the horror of Glatman's murders and explains how his crimes weren't about killing, raping, and torturing at all...they were all about the rope. America has a long and complicated fascination with serial killers. When we think about the most infamous of these killers, we generally think of men like Ted Bundy, Jeffrey Dahmer, or John Wayne Gacy. Those names make headlines while there's the often-repeated myth that suggests there are no female serial killers. After all, most of us couldn't name a woman on the same scale of infamy as BTK or the elusive Zodiac Killer, can we? As it so often is, the truth is far more complicated. Women kill. While they are less sensationalized than their male counterparts, they are no less deadly. At time of publication, current research shows that one in six serial killers are female, bringing their number to fifteen percent of confirmed serial killers. This reference book includes background information on the killers, their victims, methods, and - where relevant - their arrests, trials, and convictions.

Journalist Nadia Fezzani spent years probing the minds of serial killers in search of answers to unsettling questions: What went on in their heads as they prepared for their next crime? What drove them to murder not once, but habitually? Were they born killers, or had they begun as normal individuals and been somehow transformed into predators? Fezzani conducted groundbreaking, uncensored interviews with multiple-murderers behind bars. The account she pieces together from interviews, psychological research, criminal profiling, and genetic studies, is as unsettling as it is undeniable. The scars of abuse, and cold-blooded logic all emerge as Fezzani dissects serial killers' personalities in a quest to understand those who have committed unthinkable crimes. Through the Eyes of Serial Killers explores the leading theories on the psychology of serial killing, victim selection, and telling signs of potentially dangerous mental disturbance. It is hoped that a clear-headed understanding of serial killings can unlock better strategies to prevent, or even predict this rarest and most evil of crimes.

This book will send chills up and down your spine. You've heard that before, but in this case, it's true. Here, you will see for yourself how a serial killer's mind works. You will hear them, in their own words, describe their despicable deeds. And you will learn how to kill someone without remorse, and even with a sense of fun and enjoyment. Over the past five years, johnny trevisani (no caps, by the way - all lowercase), has compiled the most extensive collection of serial killer quotes, certainly on the web, and probably on Earth. It offers a bizarre and disturbing glimpse into the warped minds of people who kill, and kill, and kill again. For the first time, trevisani's opus, the Serial Killer Quote of the Day, is available as an ebook. It offers you a year's worth of psychotic ramblings, lame justifications, and blow-by-blow descriptions of terrible crimes and the worst behavior of which humans are capable. You will be amazed, horrified, and fascinated. You may find the thoughts expressed uncomfortably similar to your own. You may dip into this book each morning, finding inspiration in nightmarish acts and deranged flights of fancy. You may stay up late at night, and read the whole thing in one sitting. The people in these pages are mass murderers, kidnapers, rapists and child molesters, mad bombers, necrophiliacs and cannibals. Some are totally insane, suffering from paranoid delusions. Some are all too normal, at least on the surface. They all destroyed countless lives - not just of the people they killed, but of the family and friends who lost their loved ones. These serial killers shoot people, stab them, strangle them, beat them to death, even blow them up. Sometimes they capture their victims and keep them alive for days, using them for sex, torturing them, toying with them the way a cat toys with a mouse. To these maniacs, murder is a compulsion, an addiction, an entertaining diversion, and sometimes just a means to an end. The monsters represented here include: - Jeffrey Dahmer - John Wayne Gacy - Charles Manson - The Son of Sam - Aileen Wuornos And more than 100 others. Check out these sample quotes: "I remember being told as a kid, you cut off the head and the body dies. The body is nothing after the head is cut off. Well, that's not quite true. With a girl, there's a lot left in the girl's body without a head. Of course, the personality is gone." - Ed Kemper ----- "I know it ain't normal for a person to go out and kill a girl just to have sex with her." - Henry Lee Lucas ----- "What's one less person on the face of the Earth, anyway?" - Ted Bundy ----- Each daily quote is accompanied by a mugshot, the number of people that killer is thought to have murdered, the years the killer was active, and the location. Each entry is also accompanied by a fact about the killer's life, giving you a dark look into the events that shape minds like these. And

every month, there is a "Serial Killer of the Month." That killer is profiled more in-depth, presenting an intimate, up close and personal portrayal of someone you would never want to meet in real life. These serial killers will charm you. They will make you laugh. They will also terrify you. You will want to kill them yourself. You will wish that before they died, they had suffered more than they did. You will be outraged at the ones who are still alive, living it up in prison. Or worse, the ones who were let go, or escaped, and have since disappeared. And the ones who were never caught? They will make your skin crawl. If you are a person who enjoys true crime, as spoken by the people who did it, Serial Killer Quote of the Day is for you.

The first volume featuring the most infamous killers throughout history—from Afghanistan's Abdullah Shah to Kazakh cannibal Nikolai Dzhumagaliev. The World Encyclopedia of Serial Killers is the most comprehensive set of its kind in the history of true crime publishing. Written and compiled by Susan Hall, the four-volume set has more than 1600 entries of male and female serial killers from around the world. Defined by the FBI as a person who murders three or more people over a period of time with a hiatus of weeks or months between murders, serial killers have walked among us from the dawn of time as these books will demonstrate. While the entries to these volumes will continue to grow—the FBI estimates that there are at least fifty serial killers operating in the United States at any given time—The World Encyclopedia of Serial Killers is as complete as possible through the end of 2017. The set begins with Volume One, Letters A – D. The entries include Ted Bundy, the Candyman Dean Corll, Angel of Death killer Donald Harvey, the ABC Killer, and the Bodies in the Barrels Murders. You will find these killers and approximately five-hundred others in this first book in the series of The World Encyclopedia of Serial Killers.

Profile of a Criminal Mind Dundurn

"You're safe, Stride. I found the body at the Deeps. I buried him." Jonathan Stride's best friend, Steve Garske, makes a shocking deathbed confession: he protected Stride by covering up a murder. Hours later, the police dig up Steve's yard and find a body with a bullet hole in its skull. Stride is pretty sure he knows who it is. Seven years ago, an out-of-town reporter disappeared while investigating anonymous allegations of rape against a prominent politician. Back then, the police believed that the reporter drowned at a dangerous swimming hole called the Deeps ... but the discovery of the body changes everything. Now Stride's partner, Maggie Bei, is forced to ask Stride an uncomfortable question: Did you kill him? Stride is obviously hiding things. He was the last person to see the reporter alive. And he admits lying to Maggie about that meeting, but won't tell her why. With suspicion in the murder pointing at him, Stride finds himself off the case and on leave from the Duluth Police. His only ally in clearing his name is his wife, Serena, who retraces the reporter's investigation into the explosive allegations. The clues all point to a hot Duluth summer years earlier that everyone in town would prefer to forget. Someone was willing to kill rather than let those long-ago secrets come out, and the suspect with the strongest motive ... is Stride.
