In 1958, a shy young man with few social skills sped along the Santa Ana freeway out of L.A. headed to the desert with his 'date' huddled in the passenger seat beside him. In his pockets, Harvey Glatman had a gun and a length of rope. Drunk on power, arousal, and rage, Harvey also had a plan. And beneath the desert stars, by the light of the

moon, he carried out his ordeal of unimaginable cruelty, using his body, a camera and his rope... Months later, after one of his inhuman attacks went awry, Harvey's torture killings were described to a shocked and silent California courtroom. Michael Newton vividly recounts the horror of Glatman's murders and explains how his crimes weren't about killing, raping, and torturing at all...they were all about the rope.

cooperation, resulting in a fascinating and horrifying - portrait of the man who worshipped death. In February 1983, residents of Muswell Hill had been plagued by blocked drains. When a plumber was called to investigate, he discovered a large blockage of biological material. To his horror, it appeared to be formed of human flesh and bones. The next day, local resident Dennis Nilsen was arrested. 'Are we talking about one body or two?' a detective asked. Nilsen replied 'Fifteen or sixteen, since 1978. I'll tell you everything.' Within days he had confessed to fifteen gruesome murders over a period of four years. His victims, mostly young gay men at a time when society cared little for them, had been overlooked. Killing for Company is a unique study of a murderer's mind, essential reading for true crime aficionados.

### Killer Book of Serial Killers Dark Horse Comics

This book will send chills up and down your spine. You've heard that before, but in this case, it's true. Here, you will see for yourself how a serial killer's mind works. You will hear them, in their own words, describe their despicable deeds. And you will learn how to kill someone without remorse, and even with a sense of fun and enjoyment. Over the past five years, johnny trevisani (no caps, by the way - all lowercase), has compiled the most extensive collection of serial killer quotes, certainly on the web, and probably

on Earth. It offers a bizarre and disturbing glimpse into the warped minds of people who kill, and kill, and kill again. For the first time, trevisani's opus, the Serial Killer Quote of the Day, is available as an ebook. It offers you a year's worth of psychotic ramblings, lame justifications, and blow-by-blow descriptions of terrible crimes and the worst behavior of which humans are capable. You will be amazed, horrified, and fascinated. You may find the thoughts expressed uncomfortably similar to your own. You may dip into this book each morning, finding inspiration in nightmarish acts and deranged flights of fancy. You may stay up late at night, and read the whole thing in one sitting. The people in these pages are mass murderers, kidnappers, rapists and child molesters, mad bombers, necrophiliacs and cannibals. Some are totally insane,

---

suffering from paranoid delusions. Some are all too normal, at least on the surface. They all destroyed countless lives - not just of the people they killed, but of the family and friends who lost their loved ones. These serial killers shoot people, stab them, strangle them, beat them to death, even blow them up. Sometimes they capture their victims and keep them alive for days, using them for sex, torturing them, toying with them the way a cat toys with a mouse. To these maniacs, murder is a compulsion, an addiction, an entertaining diversion, and sometimes just a means to an end. The monsters represented here include: - Jeffrey Dahmer - John Wayne Gacy - Charles Manson - The Son of Sam - Aileen Wuornos And more than 100 others. Check out these sample quotes: "I remember being told as a kid, you cut off

the head and the body dies. The body is nothing after the head is cut off. Well, that's not quite true. With a girl, there's a lot left in the girl's body without a head. Of course, the personality is gone." - Ed Kemper ----- "I know it ain't normal for a person to go out and kill a girl just to have sex with her." - Henry Lee Lucas ----- "What's one less person on the face of the Earth, anyway?" - Ted Bundy ----- Each daily quote is accompanied by a mugshot, the number of people that killer is thought to have murdered, the years the killer was active, and the location. Each entry is also accompanied by a fact about the killer's life, giving you a dark look into the events that shape minds like these. And every month, there is a "Serial Killer of the Month." That killer is profiled more in-depth, presenting an intimate, up close and personal portrayal of someone you would

---

never want to meet in real life. These serial killers will charm you. They will make you laugh. They will also terrify you. You will want to kill them yourself. You will wish that before they died, they had suffered more than they did. You will be outraged at the ones who are still alive, living it up in prison. Or worse, the ones who were let go, or escaped, and have since disappeared. And the ones who were never caught? They will make your skin crawl. If you are a person who enjoys true crime, as spoken by the people who did it, Serial Killer Quote of the Day is for you.

America has a long and complicated fascination with serial killers. When we think about the most infamous of these killers, we generally think of men like Ted Bundy, Jeffrey

Dahmer, or John Wayne Gacy. Those names make headlines while there's the often-repeated myth that suggests there are no female serial killers. After all, most of us couldn't name a woman on the same scale of infamy at BTK or the elusive Zodiac Killer, can we? As it so often is, the truth is far more complicated. Women kill. While they are less sensationalized than their male counterparts, they are no less deadly. At time of publication, current research shows that one in six serial killers are female, bringing their number to fifteen percent of confirmed serial killers. This reference book includes background

---

information on the killers, their victims, methods, and - where relevant - their arrests, trials, and convictions.

“ You ’ re safe, Stride. I found the body at the Deeps. I buried him. ” Jonathan Stride ’ s best friend, Steve Garske, makes a shocking deathbed confession: he protected Stride by covering up a murder. Hours later, the police dig up Steve ’ s yard and find a body with a bullet hole in its skull. Stride is pretty sure he knows who it is. Seven years ago, an out-of-town reporter disappeared while investigating anonymous allegations of rape against a prominent politician. Back then, the police

believed that the reporter drowned at a dangerous swimming hole called the Deeps ... but the discovery of the body changes everything. Now Stride ’ s partner, Maggie Bei, is forced to ask Stride an uncomfortable question: Did you kill him? Stride is obviously hiding things. He was the last person to see the reporter alive. And he admits lying to Maggie about that meeting, but won ’ t tell her why. With suspicion in the murder pointing at him, Stride finds himself off the case and on leave from the Duluth Police. His only ally in clearing his name is his wife, Serena, who retraces the reporter ’ s investigation into the explosive allegations. The clues all point to a hot Duluth summer years earlier that everyone in town would prefer to forget. Someone was willing to kill rather than let those long-ago secrets come out, and the suspect with the

strongest motive ... is Stride.

The truth behind the twisted crimes that inspired the films Psycho, The Texas Chain Saw Massacre, and The Silence of the Lambs... From “ America ’ s principal chronicler of its greatest psychopathic killers ” (The Boston Book Review) comes the definitive account of Ed Gein, a mild-mannered Wisconsin farmhand who stunned an unsuspecting nation—and redefined the meaning of

---

the word “psycho.” The year was 1957. The place was an ordinary farmhouse in America’s heartland, filled with extraordinary evidence of unthinkable depravity. The man behind the massacre was a slight, unassuming Midwesterner with a strange smile—and even stranger attachment to his domineering mother. After her death and a failed attempt to dig up his mother’s body from the local cemetery, Gein turned to other grave robberies and, ultimately, multiple murders. Driven to commit gruesome and bizarre acts beyond all imagining, Ed Gein remains one of the most deranged minds in the annals of American homicide. This is his story—recounted in fascinating and chilling detail by Harold Schechter, one of the most acclaimed true-crime storytellers of our time.

Funeral for a Friend Quercus Publishing  
In February 1983 civil servant Dennis Nilsen was arrested after body parts were found to be blocking drains at the house where he lived. As the squad car drove him away, he confessed he had strangled 15 young men. It wasn't just the crimes that stunned; it was also the way he spoke. Nilsen said he had loved the young men he killed. His words seemed bizarre. When newspapers carried stories of how the 37-year-old lured men back to his flat and why, the nation was shocked by his sheer evil. Yet some psychiatrists considered him a man of rare, complex,

---

and extreme psychological problems. In addition, none of them had met a killer who seemed so keen to understand his own psyche. Whilst on remand in Brixton Prison, Nilsen filled 55 exercise books with thoughts. During his subsequent thirty years in prison he has continued to write, most notably on the first draft of a multi-volume autobiography. The Home Office has now banned it, calling the work pornographic and outrageous. Only one journalist has read the book. Using exclusive access to Nilsen's writing and extensive independent research, Russ Coffey explains what Nilsen says and how much of it we can believe. This is a shocking glimpse into the mind of a killer.

Raising a Serial Killer A Father's Search for Answers In July of 1991 the country was shocked by the unfathomable crimes of serial killer Jeffrey Dahmer. But no one was more shocked than his parents. In A Father's Story, the reader is witness to the incremental unraveling of a parent's image of their child, and the "thousand different reactions" that follow. In his attempt to understand the nature of his son's psychosis, Lionel Dahmer methodically scrutinizes every possible contributing factor to his son's madness. His desperation is palpable as he searches for clues in the emotional, psychological, and genetic landscape of his son's life. Riveting and soul-wrenching, this

unprecedented memoir is the confession of a father who must "confront the saddest truth a human can know-that his child has somehow crossed the line that separates the human from the monstrous."
