Wayne State University Press

From acclaimed author Laurie Halse Anderson comes this compelling first novel in the historical middle grade The Seeds of America trilogy that shows the lengths we can go to cast off our chains, both physical and spiritual. As the Revolutionary War begins, thirteen-year-old Isabel wages her own fight...for freedom. Promised freedom upon the death of their owner, she and her sister, Ruth, in a cruel twist of fate become the property of a malicious New York City couple, the Locktons, who have no sympathy for the American Revolution and even less for Ruth and Isabel. When Isabel meets Curzon, a slave with ties to the Patriots, he encourages her to spy on her owners, who know details of British plans for invasion. She is reluctant at first, but when the unthinkable happens to Ruth, Isabel realizes her loyalty is available to the bidder who can provide her with freedom.

**complete in one volume. With a portrait** Open Road Media  
Brought up in the Depression, Johnny DaSilva is leader of a fun and imaginative gang that lives out their dreams in the Big Tree in which each has a branch that serves as the Lone Ranger's Silver, the race car of Morey Amsterdam, the rocket ship of

Buck Rogers, the crow's nest for Black Bart the Pirate. When World War II broke out, they tried every ruse their young imaginations could think of to get into the marines, army, and navy but had to settle for the Boy Scouts. But the faux pas war to end all wars came too soon for the Big Tree Gang. Johnny is best described by an aunt as having the millstone around the neck of having a strict English Episcopalian conscience and bucking bronco Portuguese sexual proclivities. Two girls are in love with him, one wealthy and popular, the other sexually abused and who considered herself a worthless toy, until she met Johnny. Whatever they knew about the facts of life, male and female, were learned pretty much by trial and error.

In the ruthless arena of King Henry VIII's court, only one man dares to gamble his life to win the king's favor and ascend to the heights of political power England in the 1520s is a heartbeat from disaster. If the king dies without a male heir, the country could be destroyed by civil war. Henry VIII wants to annul his marriage of twenty years, and marry Anne Boleyn. The pope and most of Europe opposes him. The quest for the king's freedom destroys his adviser, the brilliant Cardinal Wolsey, and leaves a power vacuum. Into this impasse steps Thomas Cromwell. Cromwell is a wholly original man, a charmer and a bully, both idealist and opportunist, astute in reading people and a demon of energy: he is also a consummate politician, hardened by his personal losses, implacable in his ambition. But Henry is volatile: one day tender, one day murderous. Cromwell helps him break the opposition, but what will be the price of his triumph? In inimitable style, Hilary Mantel presents a picture of a half-made

society on the cusp of change, where individuals fight or embrace their fate with passion and courage. With a vast array of characters, overflowing with incident, the novel re-creates an era when the personal and political are separated by a hairbreadth, where success brings unlimited power but a single failure means death.

From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie The Hunt. A subject of mysterious rumors and superstition, the deserted Caribbean Island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale "has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill" (The Telegraph). "[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted." —Criterion

But when Elias is given to believe that Edith is secretly in love with him, his world is flipped on its head, forcing him to reconsider everything he thought he knew. Soon realizing they have been duped by their conspiring friends, Edith and Elias resolve to turn the tables on them in the most shocking manner they can concoct--the ultimate revenge. National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—*Columbus Dispatch* At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—*The New York Times* "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

One of Mitford's earliest novels and written before Christmas 1939, *Pigeon Pie* is delivered with a touch lighter than that of her later masterpieces but no less entertaining. This comedy combines glamour, wit, and a fiendishly absurd plot into an irresistible literary confection. 'This sparking and deliciously acid commentary of the social world.' - *The Scotsman*
