The Library of Lost Things Springer
For more than three decades, preeminent

scholars in comparative literature and postcolonial studies have called for a return to philology as the indispensable basis of critical method in the humanities. Against such calls, this book argues that the privilege philology has always enjoyed within the modern humanities silently reinforces a colonial hierarchy. In fact, each of philology's foundational innovations originally served British rule in India. Tracing an unacknowledged history that extends from British Orientalist Sir William Jones to Palestinian American intellectual Edward Said and beyond, *Archaeology of Babel* excavates the epistemic transformation that was engendered on a global scale by the colonial reconstruction of native languages, literatures, and law. In the

process, it reveals the extent to which even postcolonial studies and European philosophy—not to mention discourses as disparate as Islamic fundamentalism, Hindu nationalism, and global environmentalism—are the progeny of colonial rule. Going further, it unearths the alternate concepts of language and literature that were lost along the way and issues its own call for humanists to reckon with the politics of the philological practices to which they now return.

Cyberpragmatics is an analysis of Internet-mediated communication from the perspective of cognitive pragmatics. It addresses a whole range of

interactions that can be found on the Net: the web page, chat rooms, instant messaging, social networking sites, 3D virtual worlds, blogs, videoconference, e-mail, Twitter, etc. Of special interest is the role of intentions and the quality of interpretations when these Internet-mediated interactions take place, which is often affected by the textual properties of the medium. The book also analyses the pragmatic implications of transferring offline discourses (e.g. printed paper, advertisements) to the screen-framed space of the Net. And although the main framework is cognitive pragmatics, the book also draws from other theories and models in order to build up a better picture of what really happens when

people communicate on the Net. This book will interest analysts doing research on computer-mediated communication, university students and researchers undergoing post-graduate courses or writing a PhD thesis. Now Open Access as part of the Knowledge Unlatched 2017 Backlist Collection.

"No lies" The Hurricane Notebook,

found on a Wilmington beach after a storm, contains the thoughts, artistic experiments, vignettes, and recorded dialogues of an unknown author calling herself "Elizabeth M." Its entries record the inner life of a soul in crisis, perpetually returning to the moment she learned of her sister's suicide and making an unrelenting attempt to understand herself and the human condition. Whether engaged in introspective soul-searching, or reconstructing her discussions with friends, mentors, and acquaintances, she challenges herself to accept "No lies" that would mask or hide her own responsibility for evil in the world. The notebook ends abruptly; having

traversed subjects as diverse as God, childhood, chess, philosophy, ballet, selfhood, conscience, guilt, and friendship, Elizabeth's questions are left uncertain and hanging in the air, just like her hope that she might find "one person on earth who understands me," and unanswered, like her plea "Having understood me, would you grieve on my behalf, my friend?"

"I wrote this book not to dismiss a rumor but to share something much more important: my journey to forgiveness." Chiquis Rivera is a singer and the daughter of the late music superstar Jenni Rivera. In *Forgiveness*, her memoir, Chiquis bravely reveals the abuse she suffered at the hands of her father during her childhood and the difficulties she's faced in

her personal life as a result. Despite growing up marked by the wounds of abuse, she eventually conquered her fear of love and intimacy. The story within these pages also recounts what caused the distance between her and her mother toward the end of Jenni's life. In *Forgiveness*, Chiquis brings to light truths that she wishes she had been able to reveal to Jenni. Two years after her mother's death, Chiquis answers the most difficult questions: Was she able to make peace with Jenni? And in this story of triumph and tragedy, who is most in need of forgiveness?

The Reducetarian Solution Harlequin

A New York Times Book Review Editors' Choice | One of Esquire's 125 best books about Hollywood Award-winning master critic Robert Gottlieb takes a singular and multifaceted look at the life of silver screen legend Greta Garbo, and the culture that worshiped her. "Wherever you look in the

period between 1925 and 1941," Robert Gottlieb writes in *Garbo*, "Greta Garbo is in people's minds, hearts, and dreams." Strikingly glamorous and famously inscrutable, she managed, in sixteen short years, to infiltrate the world's subconscious; the end of her film career, when she was thirty-six, only made her more irresistible. Garbo appeared in just twenty-four Hollywood movies, yet her impact on the world—and that indescribable, transcendent presence she possessed—was rivaled only by Marilyn Monroe's. She was looked on as a unique phenomenon, a sphinx, a myth, the most beautiful woman in the world, but in reality she was a Swedish peasant girl, uneducated, naïve, and always on her guard. When she arrived in Hollywood, aged nineteen, she spoke barely a word of English and was completely unprepared for the ferocious publicity that quickly adhered to her as, almost overnight, she became the world's most

famous actress. In *Garbo*, the acclaimed critic and editor Robert Gottlieb offers a vivid and thorough retelling of her life, beginning in the slums of Stockholm and proceeding through her years of struggling to elude the attention of the world—her desperate, futile striving to be “left alone.” He takes us through the films themselves, from M-G-M’s early presentation of her as a “vamp”—her overwhelming beauty drawing men to their doom, a formula she loathed—to the artistic heights of *Camille* and *Ninotchka* (“*Garbo Laughs!*”), by way of *Anna Christie* (“*Garbo Talks!*”), *Mata Hari*, and *Grand Hotel*. He examines her passive withdrawal from the movies, and the endless attempts to draw her back. And he sketches the life she led as a very wealthy woman in New York—“a hermit about town”—and the life she led in Europe among the Rothschilds and men like Onassis and Churchill. Her relationships with her famous co-star John

Gilbert, with Cecil Beaton, with Leopold Stokowski, with Erich Maria Remarque, with George Schlee—were they consummated? Was she bisexual? Was she sexual at all? The whole world wanted to know—and still wants to know. In addition to offering his rich account of her life, Gottlieb, in what he calls “*A Garbo Reader*,” brings together a remarkable assembly of glimpses of Garbo from other people’s memoirs and interviews, ranging from Ingmar Bergman and Tallulah Bankhead to Roland Barthes; from literature (she turns up everywhere—in Hemingway’s *For Whom the Bell Tolls*, in Evelyn Waugh, Graham Greene, and the letters of Marianne Moore and Alice B. Toklas); from countless songs and cartoons and articles of merchandise. Most extraordinary of all are the pictures—250 or so ravishing movie stills, formal portraits, and revealing snapshots—all reproduced here in superb duotone. She had no personal vanity,

no interest in clothes and make-up, yet the story of Garbo is essentially the story of a face and the camera. Forty years after her career ended, she was still being tormented by unrelenting paparazzi wherever she went.

This open access book is a novel contribution in two ways: It is a multi-disciplinary examination of the indigenous South Saami people in Fennoscandia, a social and cultural group that often is overlooked as it is a minority within the Saami minority. Based on both historical material such as archaeological evidence, 20th century newspapers, and postcard motives as well as current sources such as ongoing land-right trials and recent works of historiography, the articles highlight the culture and living conditions of this indigenous group, mapping the negotiations of different identities through the interaction of Saami and non-Saami people through the ages. By illuminating this under-researched field, the volume

also enriches the more general debate on global indigenous history, and sheds light on the construction of a Scandinavian identity and the limits of the welfare state and the myth of heterogeneity and equality.

The destructive effects of modern industrial societies have shaped the planet in such profound ways that many argue for the existence of a new geological epoch called

the Anthropocene. This claim brings into relief a set of challenges that have deep implications for how relations between the human, the material, and the political affect contemporary social worlds. The contributors to *Anthropos and the Material* examine these challenges by questioning and complicating long-held understandings of the divide between humans and things. They present ethnographic case studies from across the globe, addressing myriad topics that range from labor, economics, and colonialism to technology, culture, the environment, agency, and diversity. In foregrounding the importance of connecting natural and social histories, the instability and intangibility of the material, and the ways in which the lively encounters between the human and the nonhuman

challenge conceptions of liberal humanism, the contributors point to new understandings of the capacities of people and things to act, transform, and adapt to a changing world.

Jackson about a girl convicted of murder seeking the truth while surviving life in a group home. Mary B. Addison killed a baby. Allegedly. She didn't say much in that first interview with detectives, and the

media filled in the only blanks that mattered: a white baby had died while under the care of a churchgoing black woman and her nine-year-old daughter. The public convicted Mary and the jury made it official. But did she do it? There wasn't a point to setting the record straight before, but now she's got Ted—and their unborn child—to think about. When the state threatens to take her baby, Mary's fate now lies in the hands of the one person she distrusts the most: her Momma. No one knows the real Momma. But does anyone know the real Mary?

Staying with the Trouble Independently Published

What is 'social capital'? The enormous positivity surrounding it conceals the instrumental economic rationality underpinning the notion as corporations silently sell

consumer data for profit. Status chasing is just one aspect of a process of transforming qualitative aspects of social interactions into quantifiable metrics for easier processing, prediction, and behavioural shaping. A work of critical media studies, *Social Capital Online* examines the idea within the new 'network spectacle' of digital capitalism via the ideas of Marx, Veblen, Debord, Baudrillard and Deleuze. Explaining how such phenomena as online narcissism and aggression arise, Faucher offers a new theoretical understanding of how the spectacularisation of online activity perfectly aligns with the value system of neoliberalism and its data worship. Even so, at the centre of all, lie familiar ideas – alienation and accumulation – new conceptions of which he argues are vital for understanding today's digital society.
