Beginning in 1985, one section is devoted to a special topic

Dyke's Automobile and Gasoline Engine Encyclopedia

We Were Brothers in Arms is an attempt to understand the experience of battle during WW2 through the personal experiences of the ordinary soldier. Frank Clark has gathered together the amazing stories of British soldiers during the eleven months of frenzied warfare

that followed D-Day, and combined them into this fascinating volume. As a veteran himself (serving in WW2, Korea, Malaya, Cyprus, Northern Ireland and during the Cold War), Frank is well versed in the adrenalin of battle, and here he brings together the tales of a wide cross section of fighting men on the front line. There are stories from the infantry, the assault troops who stormed the Normandy beaches and forced bridgeheads. The dashing reconnaissance men in their thin-skinned, tanks sending back vital radio reports; the parachutists, dropping behind enemy lines to fight, the sappers building bridges and clearing minefields under fire; the gunners, bringing down fast, furious and accurate barrages; the signallers, patching up communication links; the non-combatant stretcher-bearers, the doctors tending the wounded, the support services bringing up food and ammunition. This book tells their story of war, and reminds us why their sacrifice should never be forgotten. We Were Brothers in Arms is a compelling account of the last months of war told through eye witness accounts, some never before published.

Consumption Tax Trends provides information on Value Added Taxes/Goods and Services Taxes (VAT/GST) and excise duty rates in OECD member countries. It also contains information about international aspects of VAT/GST developments and the efficiency of this tax.

A Treatise on the Steam Engine ... By the Artizan Club. Edited by John Bourne ... New edition

This book is a compilation of peer-reviewed papers from the 2018 Asia-Pacific International Symposium on Aerospace Technology (APISAT 2018). The symposium is a common endeavour between the four national aerospace societies in China, Australia, Korea and Japan, namely, the Chinese Society of Aeronautics and Astronautics (CSAA), Royal Aeronautical Society Australian Division (RAeS Australian Division), the Korean Society for Aeronautical and Space Sciences (KSAS) and the Japan Society for Aeronautical and Space Sciences (JSASS). APISAT is an annual event initiated in 2009 to provide an opportunity for researchers and engineers from Asia-Pacific countries to discuss current and future advanced topics in aeronautical and space engineering.
