In By the Bedside of the Patient,
Nortin Hadler places current efforts to reform medical education--from the undergraduate level through residency programs and on to continuing medical education--in historical context. In doing so, he traces the evolution of medical school curricula, residency and fellowship programs, and the clinical practices they promoted.

<p>Hadler examines crucial junctures in history to locate the seeds for reform. Some believe that medical education and training should highlight literature, ethics, and culture, while others emphasize science and efficiency to abbreviate the time from entry to licensure. Neither of these approaches, Hadler argues, maintains or improves patient care, which should be at the core of medical education and practice. Hadler contends that most reform attempted thus far constitutes, at best, little more than a reshuffling</p>	<p>of the basic curriculum and, at worst, an augmenting of medicine's predilection to measure, grade, and record. Examining generational changes in medical education, Hadler mines sixty years of training and practice to identify mistaken approaches and best practices. Ultimately, in the contemporary era of managed care, Hadler argues for a clinical practice that draws on the best available scientific knowledge, transmits the wisdom of experienced clinicians, reforges an</p>	<p>empathetic relationship between physician and patient, and treats each patient as an individual--all centered on restoring the mandate to care.</p> <p>Lok Udyog Class Ebook Editions Ltd Edmond[1] (or Edmund[2]) Halley, FRS (/?hæli/;[3] [4] 8 November [O.S. 29 October] 1656 - 25 January 1742 [O.S. 14 January 1741]) was an English astronomer,</p>

DJIT. Gallery Books Perhaps the most charismatic automobile ever, the Volkswagen Beetle was the longest-running, most-manufactured automobile on a single platform of all time. From 1938 to 2003, more than 21.5 million "Bugs" were assembled, distributed, and sold on nearly every continent in the world. Throughout the Beetle's successful run, many of these cars have been relegated to project car status due to their age or condition. Airkooled Kustoms, a VW restoration shop in Hazel Green, Alabama, brings its expertise in restoring these cars to book form with this all-encompassing compilation. Restoring your Beetle is covered through step-by-step sequences from unbolting that first nut through polishing the paint on your freshly restored Bug. The specialists at Airkooled Kustoms walk you through the proper disassembly methods, restoring versus replacing components, and reassembling your restored Bug, covering everything related to the body, undercarriage, and interior along the way. It's about time a thorough, hands-on restoration book has been authored by authorities who know the Beetle like the back of their hands. With this book, you will have everything you need to bring your old or new VW Beetle project back to life.

"The New
Concrete" is a long-
overdue survey of
the rise of concrete
poetry in the digital
age. The
accessibility of
digital text and
image
manipulation,
modern print
techniques and the
rise of self-
publishing have
invigorated a
movement that first
emerged in an
explosion of literary
creativity during the
1950s and 1960s.
This new volume is
a highly illustrated
overview of
contemporary
artists and poets
working at the
intersection of
visual art and
literature,

producing some of
the most engaging
and challenging
work in either
medium. Edited by
poets Victoria Bean
and Chris McCabe,
with an introductory
essay by renowned
poet Kenneth
Goldsmith, "The
New Concrete" is an
indispensable
introduction to the
breadth of concrete
poetry being
produced today.
"The New
Concrete" features
new works by poets
and artists including
Vito Acconci,
Augusto de
Campos, Henri
Chopin, Paula
Claire, Bob
Cobbing, Ian
Hamilton Finlay,
John Furnival, Ilse
Garnier, Pierre

Garnier, Eugen
Gomringer,
Hansjorg Mayer,
Franz Mon, Edwin
Morgan and D é cio
Pignatari, as well as
new work by Jordan
Abel, Fiona Banner,
Michael Basinski,
Erica Baum,
Caroline Bergvall,
Derek Beaulieu,
Jaap Blonk,
Christian B ö k,
Sean Bonney, Pavel
B ü chler, Simon

Motorcycle Man Princeton University Press	into popular Lifetime movies. Left on a train platform in an unfamiliar village, little Saffron Faith Anders is certain her father will return shortly, just like he promised. She holds out hope even as the hours pass and the station grows dark. When a strange old woman with a large umbrella approaches and inquiries about her situation, Saffron doesn't immediately trust the imposing do-gooder, but with the chances of her father returning growing ever slimmer, she agrees to rest at the old woman's house. Her stay was supposed to be for a	few minutes, hours at most, but soon, Saffron soon realizes she has been confined to a house of dark secrets and is now at the mercy of the enigmatic Umbrella Lady. One minute grandmotherly and the next wickedly cruel, she shears Saffron's hair, burns all the clothes she had in her suitcase, and pretends that the photo of a young girl hanging on her bedroom wall is no one in particular. When strange letters arrive from Saffron's father, claiming that he will send for her shortly, hope returns to her young heart. But Saffron soon

The Economics of

Alfred Marshall

brings together a

number of leading

international

scholars for a timely

reappraisal of

Marshall's

contribution to the

development of

economics. The

aims of the

contributors are

firstly to revisit the

work of Alfred

Marshall and to

investigate the unity of his projects,

which contemporary

authors often tend

to underestimate;

and secondly to

show how

Marshall's approach

is not only a subject

for historians of

economic thought,

but may also

provide a message

that is relevant for

the progress of

economics.

- Monograph

focusing on Xu

Bing's most

ambitious works of

art: Book from the Sky and Book from the Ground- Presents the artist's method and motivation in his own words- An accessible yet academic insight into this innovative internationally renowned Chinese artist "The written word is the most basic element of human culture. To touch the written word is to touch the essence of culture." - Xu Bing Book from the Sky certainly seemed to have fallen from the heavens: the text of this installation piece was written in a new language that resembled traditional Chinese. No matter who

scours Xu Bing's book for 'meaning', they will only discover a semblance of it: mutated characters that resist interpretation. Carving out approximately four thousand wood blocks by hand, Xu Bing spent four years, from 1987 to 1991, making (in his own words) "something that said nothing".Book from the Sky's lengthy production process is also detailed in this monograph. Carving approximately four thousand wood blocks by hand, Xu Bing (in his own words) spent four years, from 1987 to 1991, making

"something that said nothing." After creating a book no one could read, it only made sense for Xu Bing to develop his next project: a book that transcended barriers of language: Book from the Ground. Composed entirely of pictographs, Book from the Ground is a groundbreaking study into the concept of universal communication. Whether his goal is total comprehension or confusion, Xu Bing's masterful exploration of language challenges the way we think about the written word.

It has a practical

orientation, presenting numerous clinical situations and explaining how to identify the different sources of reflux, especially in the groin. The investigation of pathology of the saphenous trunks, perforators and side branches is described in detail. As duplex ultrasound plays an important role during various venous surgical procedures, its application pre, intra and postoperatively is presented. Furthermore, the sonographic appearances of thrombotic pathology of superficial and deep veins, edema and other conditions that may be observed while exploring the veins are fully described. The book is based on the

authors' extensive clinical experience and is intended to assist fellow practitioners who want to learn more about the technique it will be equally valuable for physicians and technicians. A wealth of informative images is included with the aim of covering every potential situation. The Railway News ... Random House Trade Paperbacks Life sometimes seems illogical. Individuals do strange things: take drugs, have unprotected sex, mug each other. Love seems irrational, and so does divorce. On a larger scale, life seems no fairer or easier to fathom:

Why do some neighborhoods thrive and others become ghettos? Why is racism so persistent? Why is your idiot boss paid a fortune for sitting behind a mahogany altar? Thorny questions – and you might be surprised to hear the answers coming from an economist. But award-winning journalist Tim Harford likes to spring surprises. In this deftly reasoned book, he argues that life is logical after all. Under the surface of everyday insanity, hidden incentives are at work, and Harford shows these incentives emerging in the most unlikely

places.

The Umbrella Lady Springer During the decade that preceded Mr Gorbachev's era of glasnost and perestroika, the KGB headquarters in Moscow was putting out a constant stream of instructions to its Residencies abroad. Unknown to the KGB, however, many of these highly classified documents were being secretly copied by Oleg Gordievsky, at that time not only a high-ranking KGB officer based in London but

also a long-serving undercover agent for the British. The selected documents in this volume, translated and analysed by the editors with a commentary by Christopher Andrew to set them in context, offer a revealing insight into the attitudes, prejudices and fears of the KGB during what were to prove its declining years. authors' work in, inquiry into, and critique of online learning, educational technology, and the trends, techniques, hopes, fears, and possibilities of digital pedagogy." --back cover.
The Work of Critical Digital Pedagogy UNC Press Books
In the early 1970s, Chrysler started working on a "magic wagon" -- a completely new passenger van that would fit into a normal garage. It was a daring project for a company that was

strapped for cash. This book taps the people who created the minivans, with previously unpublished photos of the original clay models. It is not just a story of a vehicle, but of the people who pushed it through the development process, brought it to life, and refreshed it in the face of intense competition. Engineers, planners, and designers started arguing over alternatives ten years before the first van left the factory. This book	dives into the reasons behind their decisions, and some of the ways minivans could have been very different; it also covers electric and CNG minivans, engines and transmissions, concept cars, and the assembly plants. The paperback is generously illustrated with full-color design studies and photos of the final product; the Kindle version has fewer photos, but still covers the original clay models and the concepts. "It's incredibly rare	when the auto industry creates an entirely new class of vehicle, and rarer still when that innovation is an unqualified success story, but such was the case with Chrysler and the development of the minivan. "In Mopar Minivans, Zatz uses the people who were there to retell in vivid detail the largely forgotten story of how this innovative people mover evolved into a quintessential piece of American family life for two generations. It's a story that showcases not only how the
---	---	--

automotive industry can work at its best, but also the ways that the industry's prevalent groupthink mentality can stifle innovation." -- Larry Vellequette, Automotive News "I am amazed how complete you are, having not been on site in the front trenches during agreements, disagreements, and, yes, even skirmishes, at times." -- Chrysler employee David Zatz founded Chrysler-focused web site allpar.com; he also holds a Ph.D. in social and

organizational psychology from Columbia University, and has been a business consultant for 20 years. Standard Catalog of Imported Cars, 1946-1990 Xlibris Corporation This lively and accessible textbook provides a clear introduction to the relationship between language and sexuality. The New Concrete Shaun MacGregor is a complex man who struggles with alcoholism and relationships with women. He becomes involved in a battle for the control of Earth. Groomed by his mentor, John Running Bull, Shaun assists the alien

Arcturians in saving humanity from the evil Annunaki. With his psychic abilities, Shaun mediates the transformation of evil humans controlled by the Annunaki, changing monsters into harmless clones by presenting them to the Arcturians for adjustments to their souls. Shaun ' s stepfather, Mike " Mad Dog " MacGregor, who appears as a human, is the supreme leader of the Annunaki. A retired Air Force colonial, Mad Dog plots to wipe out humanity, so that his people may colonize Earth. The colonel has long viewed Shaun as his nemesis because Shaun is a Nephilim--half human and half Arcturian. He soon threatens Shaun ' s existence.

With the help of John Running Bull and the ex-Annunaki cyborg Bart, Shaun, and his new love interest Vicki kayak sixty miles to the point deep in the Red River Gorge area in Eastern Kentucky where they are extracted to safety. Along the way down the river, the group experiences many dangers, including learning of the Annunaki 's plan to wipe out humanity by transforming the Earth 's atmosphere so that it is unable to support human life by replacing oxygen with methane gas and carbon dioxide, perfect for the Annunaki. Human activities such as hydraulic fracturing and fossil fuel consumption have long been wrecking the Earth, but the process is taking too long. Nubira, home planet of the Annunaki, is rapidly being destroyed as their sun turns into a supernova. In addition to speeding up the destruction of the planet, Mad Dog MacGregor urges his cohorts to release a virus via their Annunaki Manchurian candidate in Wuhan, China, thus expediting the complete demise of the human species. Extraction is complete when Shaun and Vicki escape by jumping off Seventy Six Falls near Lake Cumberland in Kentucky. There the pair are forced into a wormhole that deposits them into the decade of the 1950s. Such time travel is the Arcturians ' version of a cosmic witness protection plan. When Shaun and Vicki arrive in the 50s, their identities are altered, but not their souls. Shaun becomes a famous writer and uses his influence for good. Finally, Shaun makes it back to the year 2020, and is faced with horrors that threaten his sanity, and threatens his ability to protect humanity from the evils of the Annunaki. Will Shaun survive long enough to save the planet, or will he become just another instrument in the Annunaki conquest of earth. Lessons for the Twenty-First-Century Physician " My name is Lucas Greywolf. " A raspy voice, as soft and sandy as the wind

that blew across the desert, spoke directly into her ear. It was a gentle sound, but Aislinn wasn't deceived. Like the winds it reminded her of, it could be whipped into a fury. . . Aislinn Andrews knows his name because his escape from prison has prompted a statewide manhunt. As lean and menacing as a panther, the fugitive invades her house, her bed, and then takes her as his hostage. Overnight, Aislinn's safe and predictable life is upended by a man considered criminal and dangerous. However, his greatest threat to Aislinn isn't the knife he wields, but his untame appeal. All his life, Lucas Greywolf has harbored a bitter grudge against Anglos, resenting even that half of his heritage. Years spent in prison for a crime he didn't commit hasn't quelled his fighting spirit, but only fanned it. After escaping, he comes face-to-face with blond, blue-eyed Aislinn Andrews, the epitome of everything he hates. Yet he must have her. Now the war Lucas wages is personal, and his fiercest enemy is his longing for the wrong woman. Two people. Two worlds. One shared moment of incandescent passion...when nothing else mattered. But can that unifying instant withstand everything that divides them, when the largest obstacle they face is the most difficult to overcome? Pride.
