As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and

natural gas are the future.

Be wary of "zombie"

vehicles: Jaguar, Land Rover, Saab, and Volvo.

Mercedes-Benz – rich cars, poor quality. There's only one Saturn you should buy.

Toyota – enough apologies: "when you mess up, fess up."
