"This manual covers the topics that a factory service manual (designed for factory trained mechanics) and a manufacturer owner's manual (designed more by lawyers than boat owners these days) covers. It will take you through the basics of maintaining and repairing your motor, step-by-step, to help you understand what the factory trained mechanics already know by heart."--Page 1-2.

"The Mutual Fund Industry Handbook is a remarkably important work . . . I am profoundly impressed by the broad and comprehensive sweep of information and knowledge that this book makes available to industry participants, college and business school students, and anyone else with a serious interest in this industry." -- From the Foreword by John C. Bogle President, Bogle Financial Markets Research Center Founder and former chief executive, The Vanguard Group A Foreword by John C. Bogle, founder of The Vanguard Group and one of the most respected leaders in the mutual fund industry, sets the stage for this authoritative book that explains the complexities of

the phenomenal industry in simple terms. Investors like the fact that mutual funds offer professional management, easy diversification, liquidity, convenience, a wide range of investment choices, and regulatory protection. *Mutual Fund Industry Handbook* touches on all of those features and focuses on the diverse functions performed in the day-to-day operations of the mutual fund industry. You'll learn about: Front-office functions-analysis, buying, and selling. Back-office functions, including settlement, custody, accounting, and reporting. Commission structures-front-end loads, back-end loads, or level loads. The various fund categories used by the Investment Company Institute, Morningstar, and Lipper. The roles played by fund managers, investment advisors, custodial banks, distributors, transfer agents, and other third-party service providers. If you want a definitive reference on the mutual fund industry, this is the book for you.

Electrical Contracting, Second Edition is a nine-chapter text guide for the greater efficiency in planning and completing installations for the design, installation and control of electrical contracts. This book starts with a general overview of the efficient cabling and techniques that must be employed for safe wiring design, as well as the cost estimation of the complete electrical contract. The subsequent chapters are devoted to other electrical contracting requirements, including electronic motor control, lighting, and electricity tariffs. A chapter focuses on the IEE Wiring Regulations and Statutory Regulations to ensure compliance to the fundamental requirements for safety. The discussion then shifts to visual inspection and testing in accordance with the IEE Wiring Regulations. The last chapter describes the special role of the Joint Industrial Council for Electrical Installation Contracting in introducing a rational and equitable incomes policy into the industry. This text includes many worked examples and illustrations to demonstrate how the technical and commercial aspects are put into practice.

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had

left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make

sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

"What?" Naomi gasped. "I'm not
going anywhere with you!" Alaric
could already scent two more
witches approaching her
apartment. Whatever she'd done

had clearly been an accident; he
couldn't rely on her magic. They
had to get out of here. She
flinched as he reached down to
cup her face, gazing into her eyes.
"Sorry about this," he murmured,
as he probed her mind. Her
thoughts were frantic, moving at
an impossible speed. All will be
well, he told her silently. Rest
now. "What—what are you—" she
whispered, as her eyes drooped.
She slumped forward into his
arms. Cradling her, he moved over
to the window, and leapt out. ***
Alaric, a centuries-old vampire,
lives a solitary life by choice.
When he's assigned to protect
Naomi, long dormant emotions
stir to life. Naomi Feldman has
never understood the strange
energy that hums beneath her
senses. But when she comes
across an ancient artifact that
seems to beckon to her, she may
finally find the answers she's been
seeking. Pursued by a dangerous
enemy and battling their growing
attraction, Naomi and Alaric
follow the mystery of the artifact
from the museums of Athens, the
streets of London, towards a
confrontation that will decide the
fate of two worlds... Start reading
