Explain Engine Firing Order | Automobile Engineering

The standard GM firing order that's been used in traditional small- and big-block

engines is
1-8-4-3-6-5-7-2. By
comparison, this is
identical to the firing
order for the original
small-block Ford
(260-289-302) as
well as the FE and
385 series of
engines when the
two platforms are
overlapped.
