Long respected as a manufacturer of sturdy agricultural machinery, the John Deere Company began in the 1960s to build a line of consumer products in a dedicated factory in Horicon, Wisconsin. Starting with a lawn and garden tractor in 1963, Deere soon entered the fast-growing snowmobile market, introducing two models in 1971. The next 13 years would see a succession of models as Deere vied against tough competitors in a weather-dependent market. This detailed history, written by two key participants in the snowmobile program, describes the development of John Deere snowmobiles from start to finish: the design and engineering decisions that shaped each important model; reception of the snowmobiles by consumers; the factory race teams; the introduction of front-engine and water-cooled models; the process of selecting engines and negotiating with suppliers, including when problems developed; and the snowmobiles' impact on product engineering. The text provides an inside view of Deere's Consumer Products Division at a time of rapid growth, and of the people and processes that made it all happen.

ACES AT WAR The American Aces Speak Eric Hammel Adding to the first three volumes of his acclaimed series, The American Aces Speak, leading combat historian Eric Hammel comes through with yet another engrossing collection of thirty-eight first-person accounts by American fighter aces serving in World War II, the Israeli War of Independence, the Korean War, and the Vietnam War As are the three earlier volumes, Aces At War is a highly charged excursion into life and death in the air, told by men who excelled at piston-engine and jet-engine aerial combat and lived to tell about it. It is an emotional rendering of what brave airmen felt and how they fought in the now-dim days of America ' s living national history. Ride with Flying Tigers ace Charlie Bond as he is shot down in flames over the Chinese city he alone has been able to defend against Japanese bombers. Share the loneliness of command as Lieutenant Commander Tom Blackburn decides the fate of the fellow Navy pilot whose F4U Corsair malfunctions in a desperate battle over Rabaul. Feel 2d Lieutenant Deacon Priest ' s overwhelming sense of duty to a friend as he lands his P-51 Mustang behind German lines to rescue his downed squadron commander. Share Lieutenant Colonel Ed Heller ' s desperation as he fights his way out of his uncontrollable F-86 Sabre jet over the wrong side of the Yalu River. And join Major Jim Kasler as he leads what might be the most important air strike of the Vietnam War. These are America ' s eagles, and the stories they tell are their own, in their very own words.
