This is a genuine OEM sourced replacement part

designed for use with Jet mini lathe. This lead screw helps to secure the spindle pulley. This item is made out of metal and it is sold individually. Please note the set screw used to secure it is sold separately. To complete this repair you would need a hex key/allen wrench.

Find Repair Rebuilder Professionals For Machine Tools ...

What is a engine Lathe? When metals such as steel, brass, iron, and so forth need to be machined, notched or cut, the process is accomplished using a metal lathe. There are various types of metal lathes for various purposes and commercial led lighting tolerances, but the most common metal lathe is a large, heavy-duty piece of equipment consisting of a number of components including: 1) the ...
