Driving from

New Mexico with  
her three-legged

dog, a strange  
man’s ashes, and a  
waitress named  
Blossom riding  
shotgun isn’t

doing. But it’s  
exactly what she  
needs... It all starts  
when Alissa  
impulsively puts a  
bid on an  
abandoned storage  
unit, only to  
become the proud  
new owner of  
Roger Hart’s  
remains. Two  
weeks later, she  
jumps in her car  
and heads west,  
thinking that  
returning the ashes  
of a dead man  
might be the first  
step on her way to

a new life. She  
isn’t wrong.  
Especially when  
Blossom, who just  
graduated from  
high school,  
hitches a ride with  
her to Texas, and  
Alissa has to get  
used to letting  
someone else take  
the wheel. Posting  
about their road  
trip on Facebook,  
complete with  
photos of Roger at  
every stop,  
Blossom opens  
Alissa’s eyes to

Interpersonal Psychology- Adolescent Skills Training (IPT-AST) is a program that teaches communication and interpersonal

problem-solving skills to improve relationships and prevent the development of depression in adolescents. IPT-AST was developed to be delivered in schools and other community settings where adolescents are most likely to receive services, with the hope that IPT-AST can help prevent depression and other problem behaviors before they become more severe. Preventing Adolescent Depression: Interpersonal Psychotherapy-Adolescent Skills Training provides a detailed description of the program to guide mental health

practitioners to implement IPT-AST. Session-by-session descriptions specify the structure and content of each session. Examples of how group leaders can discuss specific topics are provided throughout the book, and the appendix includes session outlines, communication notecards, cue cards, and more. Chapters also outline key issues related to implementation of IPT-AST, including selecting adolescents to participate in group; conducting IPT-AST in schools, primary care offices, mental health clinics, and other diverse settings;

working with adolescents at varying levels of risk for depression; and dealing with common clinical issues. Finally, the book outlines the research on this depression prevention program. Preventing Adolescent Depression is appropriate for a wide variety of mental health practitioners including psychologists, social workers, and school counselors. Air conditioning in vintage cars often falls into disrepair, as owners figure that it never really worked all that well when it was new, and assume that rejuvenation would be prohibitively expensive. In his new book, *Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning*, Rob Siegel details exactly what's needed to resurrect long-dead

air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings, upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so that the a/c blows cold enough to be usable. Although the book draws from Rob's BMW experience (with specifics for the BMW 2002 and 3.0CS), and concentrates on vintage a/c systems (those that have flare fittings and originally contained R12), most of the information applies to any air conditioning system,

foreign or domestic, vintage or modern. Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools for a/c work, fittings and sizes, the compressor, the evaporator assembly and expansion valve or orifice tube, the condenser and fan, the receiver/drier or accumulator, electrical connections and compressor cycling, connecting and using manifold gauges, the basic steps for a/c rejuvenation, from-scratch a/c retrofit, making and installing hoses, flushing the system,

pressure-testing and leak detection, evacuating and charging the system troubleshooting, and other things that heat up the cabin.
