Explains that the static stability factor is an indicator of a vehicle's propensity to roll over, and that US government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control.

The Car Book 2005 Haynes Manuals N. America, Incorporated

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

For decades Ethel Davis Hopper, known by everyone around town

as a poison-dripper and a control freak, has hosted family reunions in her little slice of beautiful northern Vermont for what has burgeoned into five generations of Davis and Hopper offspring. This year's reunion will be different, though: she's planning to host her own living funeral. The extended family, described by Ethel's favorite granddaughter as people who cluster themselves in three factions, "like bunches of Sunnis, Shias, and Kurds," plans to gather at Ethel's dream home overlooking the quaint village, despite their confusion as to what the longtime organizer has in store for them. Even the far-flung and estranged Hopper clan intends to show up this year, mostly because they wouldn't miss the old harridan's send-off to the world. As the reunion approaches, this richly textured, dark yet comic novel reveals generations of family secrets and the inbred dysfunction that accompanies that history, much of it told through the journals of Ethel's late husband, Lyle. In her finest melodrama to date, Ethel serves up guilt-trips, barbs, and a self-serving, revisionist view of life with her loving husband to her long-suffering offspring. Come and see how much fun a Family Reunion can be. Our own families will seem tame by comparison.

Phil Edmonston, Canada's

automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation. Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago. You can save \$2,000 by cutting freight fees and "administrative" charges. Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea. Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki.
