Our digital library saves in combination countries, allowing you to get the most less latency time to download any of our books with this one. Merely said, the Engine Temp Sensor For Sportster is universally compatible once any devices to read.

temp sensor? | Harley Davidson Forums
well since I can't get an answer anywhere
I'm gonna post this here. has anyone found
another suitable engine temperature sensor
that could be used for the xb's I have an 04
xb12r and my sensor wire is toast so I need a
new one and the dealers don't have any or
the one dealer that seems to have 2 won't
respond to me so any help is appreciated.

Temperature Sensor*

What should the oil temperature be on a
Harley Davidson v-twin. I have a 2007
Road Glide and just got one of those cool
digital oil temperature thermometers for
father's day. When it is around 90 degrees
outside, my oil temperature is around 255
degrees. Is that right, or is that too hot.
Since I never had a thermometer before,

I have no idea what the engine or oil
temperature normally is.

Engine Temp Sensor For Sportster

EVO: Engine Control -
Sportsterpedia

Actual engine temp with the bike
running measured in the heads (
Where the new temp sensor is
located on the Sportster which
gives a higher reading than on big
twins because of this location)
usually gives a running temp in the

range of 290-320. Keep in mind that the temp reading on the metric bike comparison was not engine temp but coolant temp.
