What should the oil temperature be on a Harley Davidson v-twin. I have a 2007 Road Gide and just got one of those cool digital oil temperature thermometers for father;s day. When it is around 90 degrees outside, my oil temperature is around 255 degrees. Is that right, or is that too hot. Since I never had a thermometer before, I&nbsp;have no idea what the engine or oil temperature normally is.
