The light-duty vehicle fleet is expected to undergo substantial technological changes over the next several decades. New powertrain designs, alternative fuels, advanced materials and

significant changes to the vehicle body are being driven by increasingly stringent fuel economy and greenhouse gas emission standards. By the end of the next decade, cars and light-duty trucks will be more fuel efficient, weigh less, emit less air pollutants, have more safety features, and will be more expensive to purchase relative to current vehicles. Though the gasoline-

powered spark ignition engine will continue to be the dominant powertrain configuration even through 2030, such vehicles will be equipped with advanced technologies, materials, electronics and controls, and aerodynamics. And by 2030, the deployment of alternative methods to propel and fuel vehicles and alternative modes of transportation, including

autonomous vehicles, will be well underway. What are these new technologies - how will they work, and will some technologies be more effective than others? Written to inform The United States Department of Transportation's National Highway Traffic Safety Administration (NHTSA) and Environmental Protection Agency (EPA) Corporate

Though there were no river current, there would be the undertow. Betty

promised to use her common sense and swim within the boundaries allowed at the resort to which she was bound. With the highest anticipations, then, Betty accompanied the Gwynnes and Kathryn Allen on the fascinating trip East and to New England. Dick Lee was at a boys camp. His twin, Doris, would soon be at a corresponding girls ' camp, for it " had to be fair, " at the risk, said Mr. Lee, of depleting the treasury. Mother and

Amy Lou would remain in a “ lucky girl, ” and Betty the city with Father, but thought so too. would take an outing with him later, when a business trip would take him East again. Then Betty, returning from the visit with Carolyn, would meet other girl friends at a “ wonderful ” Girl Reserve camp. Truly the summer could offer no more! Betty ’ s former chum at the little town of Buxton, Janet Light, with whom Betty still corresponded fitfully, as her full life permitted, wrote Betty that she was
