What is a "Section View"?

What is a "Section View"? A section view is a view used on a drawing to show an area or hidden part of an object by cutting away or removing some of that object. The cut line is called a "cutting plane", and can be done in several ways.

I Want to Draw: Simple
Exercises for Complete
Beginners

Any engineering drawing should show everything: a complete understanding of the object should be possible from the drawing. If the isometric drawing can show all details and all dimensions on one drawing, it is ideal. One can pack a great deal of information into an isometric drawing. However, if the object in figure 2 had a hole on the back ...

Autocad mechanical practice drawings pdf free Download Exercise 7 Exercise 8 Exercise 9 Exercise 10. Exercise 11. If you find any difficulties working on these Exercises, Here is what you need to do. Either drop a comment below or simply visit the series learn AutoCAD Basics. Each of these exercises was treated in depth in the last CAD series. Let's use the image below to practice in AutoCAD. **Drawing Section Views** SolidWorks Education . Detailed Drawing Exercises . Dassault Systèmes SolidWorks Corp. Outside the US: 1 978 371 5011
