services from 17 offices across the United States. To find the office nearest you, please click the link below. *Engineering Economics 4-1 - Valparaiso University*

Engineering Economics. The essential idea behind engineering economics is that money generates money. You cannot compare \$10.00 today to \$10.00 a year from now without adjusting for the investment potential. A simple example would be to take the \$10.00 and put it in a savings account at 2% interests. After a year you have \$10.20 instead of \$10.00.
