perfect way to brush up your skills. Take one of our many Statistics practice tests for a run-through of commonly asked questions. You will receive incredibly detailed scoring results at the end of your Statistics practice test to help you identify your strengths and weaknesses.

### Statistics Practice Tests - Varsity Tutors

Explanation: . The net torque on the pulley is zero. Remember that , assuming the force acts perpendicular to the radius. Because the pulley is symmetrical in this problem (meaning the  $r$  is the same) and the tension throughout the entire rope is the same (meaning  $F$  is the same), we know that the counterclockwise torque cancels out the clockwise torque, thus, the net torque is zero.

Our GCSE in Design and Technology offers a

foundation in the principles and iterative design practices of various 21st century design and manufacture industries. The qualification offers flexibility in the approaches students use to apply knowledge and understanding of these practices and principles when designing and making prototypes that ...
