USACE Publications - Engineer Manuals

Manuals and StandardsThe Bureau of Engineering offers access to specific data to Citywide users. However, please note that certain information may only be available to City employees.

The purpose of the FDOT Traffic Engineering Manual (TEM) is to provide traffic engineering standards and guidelines to be used on the State Highway System. The manual covers the process whereby standards and guidelines are adopted, as well as chapters devoted to highway signs, traffic signals, markings, and specialized operational topics.

Traffic Engineering Manual

The manual is purposely brief, on the order of 33 pages. It is not for the new engineer by his or

her self. It is intended to be a template for the steps that must be followed. The new engineer will have to be mentored by a more senior (a.k.a. experienced) engineer.
