Quran with parallel English translation. Clear Arabic. Modern English. Easy to read. Arabic text is sharp, beautiful, and easy to follow. English translation is simple, easy to understand, and faithful to the Arabic. Ayas are written individually, for convenient learning. Arabic and English are in parallel, for continuous reading. The Quran is the word of God, revealed to humanity, though the Messenger Muhammad. The Quran is the direct speech of God, to the reader. The Quran contains guidance, mercy, and healing. It is the eternal truth, the everlasting miracle. The Quran is beyond doubt from the Lord of the Universe. God is the Creator of the Heavens and Earth. He is the Supreme, the Almighty, the Wise. God was never begotten, nor does He ever beget others. He is the Lord of the Worlds, the Most High, the Forgiving. Out of his Mercy, he communicated with humanity, and informed humanity about His existence. The Quran is the last Book from God, revealed in the Arabic language. The translation is in contemporary English. It uses today 's English language, and today 's English vocabulary; more importantly, it is very accurate. The translation closely follows the Arabic text. Punctuation is the same. The meaning is the same. The reader can read a verse in Arabic, then the translation; learn the verse, and

understand the meaning. This book is perhaps the ultimate Quran learning tool. The Quran is a blessing, within easy reach.

**Translating Tenses in Arabic-English and English-Arabic Contexts Cambridge Scholars Publishing**  
Mughazy, a well-respected scholar of Arabic linguistics and a Georgetown Languages board member, takes a practical approach to the task of translating nonfiction from Arabic to English. Using Optimality Theory from linguistics, he provides a new way, based in linguistics, of looking at best practices for translation with the goal to find the most accurate translation. He aims to approach translation more scientifically (identify the problem, test hypotheses, selecting the best option and finding patterns) than those who use the more widely known literary translation theory. Although there are several books out on this topic, none address it as Mughazy has. This is a unique approach that offers a new, more practical way for those with advanced knowledge of Arabic to learn how to translate. As more schools begin or consider beginning translation programs, this book may find a larger audience over the years. Mughazy's book is rich with authentic examples, exercises (answer key included), and includes very valuable appendices for the learner. As Clara told me, "This is a book I wish I had had in grad school."

Legal language differs from ordinary language, not just in vocabulary, but also in its morphology, syntax, semantics and other linguistic features. This book explores the differences in such features, in addition to investigating the description, development, distinctive features, characteristics, difficulties and problems of drafting legal English and Arabic texts within their respective legal contexts. Particular attention is given throughout to the characteristic features of legal language that usually tend to be ignored in academic analysis. As such, the book will be of interest to both lawyers and linguists, and will help foster a greater understanding of the features of legal language and how inaccuracies can be avoided.

This translation guide is based on sound theoretical and pedagogical principles. Unlike other translation manuals available, it transcends crude dichotomies of "literal" vs.

"free" translation, "specialized" vs. "general," "communicative" vs. "semantic," etc. and concentrates instead on developing in the student a sensitivity to text-types and a deeper understanding of the demand. which a given text-type makes on the translator. In addition, the student who closely follows this Guide will acquire the analytical tools necessary to make meaningful comments about translation and translations. A glossary of text-linguistic and translation terms is provided together with a select bibliography.

This book explores the influence of translation on the Arabic language, with particular emphasis on the translation of English idioms by journalists working at Arabic satellite TV stations, using a mixed-method approach (quantitative and qualitative). It begins from a belief that the impact of broadcast media on Arabic speakers is more instant, wider and farther-reaching than that caused or triggered by any other branch of mass media, as not all features of television appear in other media. The book focuses on idioms because of the difficulties associated with translating them, and also because the literature review revealed inadequacy in understanding this intriguing part of the development of the Arabic language. In contrast to other similar titles, the book examines the possible factors causing journalists to resort to idiom literalisation, including those relating to demographic characteristics. The main significance of this book is that it has practical implications for its potential audience, both practitioners and professional peers. It provides information to enable media translators and lexicographers to become more sensitive towards the logico-semantic relationships present in idiomatic expressions, and to improve their application of idiomatic expressions in their translations. Overall, the results presented here will serve to guide media

translators and lexicographers' choice in the usage of idioms to produce better quality translations and dictionaries. This insight is important not only to translators and lexicographers, but also to language teachers and students of translation. Pedagogically, the findings of the current book will encourage translation teachers to reconsider their strategies for teaching English idioms. Students of translation and English language learners in general will also benefit from the results of this book.

#### The Routledge Course in Translation Annotation

Otto Harrassowitz Verlag

This volume is devoted to the translation of Arabic tenses into English, and English tenses into Arabic. Using a corpus of 1,605 examples, it is remarkably exhaustive in its treatment of the categories and forms of both Standard Arabic and English tenses. As such, it represents a useful reference for translators and linguistics researchers. With 260 example sentences and their translations, the book will be very beneficial to teachers and students of Arabic-English and English-Arabic translation. The book is divided into eight chapters. The first presents the variety of Arabic that will be studied and explains why translation should be a text-oriented process. Chapter Two deals with the differences between tense and aspect in Arabic and

English, respectively. Chapter Three proposes a model for translating Standard Arabic perfect verbs into English based on their contextual references. The fourth chapter shows the contextual clues that can assist a translator in selecting the proper English equivalents of Arabic imperfect verbs. Chapter Five deals with the translation of Arabic active participles into English. Translating Arabic passive participles into English is handled in Chapter Six. The seventh chapter tackles the translation of English simple and progressive tenses into Arabic. Chapter Eight provides an approach to the translation of English perfect and perfect progressive tenses into Standard Arabic.
