Teaching English as a Second Language Routledge
This book introduces a new framework for analyzing second language (L2) learners’ written texts. The authors conducted a major study on changes and differences in English L2 learners’ writing performance to advance understanding of the nature of L2 writing development over time, in relation to L2 instruction and testing, and to offer a model that professionals and researchers can use in their own longitudinal and cross-sectional studies of L2 writing development. Grounded in research, data, theory, and technology, this will be a welcome how-to for language test developers, scholars, and graduate students of (L2) writing and assessment.

Learners' Problems and Coping Strategies Tesol Press
The teaching of writing has become an area of increased interest and importance for teachers of second and foreign languages as well as educational researchers. This comprehensive collection covers the major issues writing teachers face in setting agendas for teaching writing to non-native speakers. The thirteen original articles, written by recognized scholars in the field, present original research studies, both qualitative and quantitative, and practical applications for the classroom teacher. The topics covered include the composing process of second language writers, variables in second language writing performance, teacher response to student writing and student processing of feedback, writing assessment, and the reading/writing connection. The book further provides a historical view of the evolution in approaches to the teaching of second language writing and a coherent view of current approaches and issues.

Second Language Writing is addressed to second and foreign language teachers, teachers in training, graduate students in education and applied linguistics, educational researchers, and other educators concerned with the teaching of writing.

English-as-a-second-language (ESL) Teaching and Learning
Teaching English as a Second Language Giving New Learners an Everyday Grammar

An introductory textbook that assumes no prior knowledge of linguistics or second language acquisition, this book presents a comprehensive overview of the theoretical foundations, methods and practices of Teaching English as a Foreign Language (TEFL) for pre-service teachers. Lennon covers the theoretical bases for TEFL and addresses second language-acquisition research, past and present EFL teaching methodology, as well as psychological and social approaches to individual language-learner variation. Further chapters provide extensive yet accessible coverage on essential foundational topics, including chapters on pronunciation, grammar, vocabulary, literature and testing. Offering a sociocultural approach in which the teacher is seen as a facilitator and supporter of students' self-directed learning, this

text provides the prospective teacher with the knowledge and skills to be an effective educator in the EFL classroom. The targeted EFL focus makes this book ideal for pre-service teachers and for teacher training programmes around the world. Each chapter includes a Food for Thought section with questions for reflection and a Further Reading list.

The Cambridge Guide to Learning English as a Second Language Little Brown & Company
Since it was first established in the 1970's the Applied Linguistics and Language Study series has become a major force in the study of practical problems in human communication and language education. Drawing extensively on empirical research and theoretical work in linguistics, sociology, psychology and education, the series explores key issues in language acquisition and language use. English as a Second Language learners are now a considerable and increasing part of the mainstream of urban schools in English-speaking countries. Beyond the learning of English, this development raises broader questions of language as a medium of education in a multilingual, multicultural environment. Drawing on their experience as researchers and educators in Australia, Canada and England, the authors of English as a Second Language in the Mainstream present an up-to-date account of advances in theory and practice. Their analysis of system-wide provision however, suggests that a truly responsive educational vision is lacking: government policy is inadequate, educational practices for ESL students are either underdeveloped or poorly coordinated with practices for other students, and the rhetoric of reform fails to engage significantly with issues of teaching and resources. The authors argue towards a more comprehensive vision which can acknowledge the relation between issues concerning ESL students and issues concerning the educational system as a whole, which can coordinate reforms in ESL education with general reforms, which can explicitly and systematically integrate language learning and content learning, and which can build more positively on the multilingual and multicultural nature of modern education for all students.

ESL Beginner Routledge
Teaching English to Second Language Learners in Academic Contexts: Reading, Writing, Listening, and Speaking provides the fundamental knowledge that ESL and EFL teachers need to teach the four language skills. This foundational text, written by internationally renowned experts in the field, explains why skills-based teaching is at the heart of effective instruction in English for academic purposes (EAP) contexts. Each of the four main sections of the book helps readers understand how each skill—reading, writing, listening, and speaking—works and explains what research has to say about successful skill performance. Pedagogically focused chapters apply this information to principles for EAP curriculum design and to instructional activities and tasks adaptable in a wide range of language-learning contexts. Options for assessment and the role of digital technologies are considered for each skill, and essential information on integrated-skill instruction is provided. Moving from theory to practice, this teacher-friendly text is an essential resource for courses in TESOL programs, for in-service teacher-training seminars, and for practicing EAP teachers who want to upgrade their teaching abilities and knowledge bases.

Learning English as a Foreign Language For Dummies Routledge
This book focuses on understanding the process of problem construction in oral communication in foreign language contexts, examining how speakers of English as a second language approach issues in oral communication, as well as the strategies they employ to overcome these difficulties. Using theories of general communication, and in particular current approaches to L2 oral communication and strategies in interactional discourse, the authors construct a theoretical framework for defining, identifying and classifying learners' problems and coping strategies when speaking English as a second or foreign language. The book offers a coherent process-oriented description of the complex and multidimensional nature and typology of oral interaction problems in EFL contexts, and it will be of interest to practitioners, teachers, researchers, students, and curriculum designers in Applied Linguistics and TESOL.

Teaching English as a Foreign Or Second Language
Pearson College Division

The introduction and tracking of reference to people or individuals, known as referential movement, is a central feature of coherence, and accounts for “about every third word of discourse”. Located at the intersection of pragmatics and grammar, reference is now proving a rich and enduring source of insight into second language development. The challenge for second language (L2) learners involves navigating the selection and positioning of reference in the target language, continually shifting and balancing the referential means used to maintain coherence, while remaining acutely sensitive to the discourse and social context. The present volume focuses on how L2 learners meet that challenge, bringing together both eminent and up-and-coming researchers in the field of L2 acquisition. The chapters address a range of problems in second language acquisition (SLA) (e.g., form-function mapping, first language [L1] influence, developmental trajectories), and do so in relation to various theoretical approaches to reference (e.g., Accessibility Theory, Givenness Hierarchy). The global outlook of these studies relates to the L2 acquisition of English, French, Japanese, Korean, and Spanish and covers a diverse range of situational contexts including heritage language learning, English as a medium of instruction, and the development of sociolinguistic competence.
