English language grammar exercises Independently Published Explains the basic terminology and concepts of English grammar, focusing on material which will most benefit students of Japanese.

Absolute English Grammar Wiley

An engaging and fresh take on the rules and politics of English grammar, written in lively prose. It goes a step further than most books on grammar by providing an overview of the field, with a discussion of historical and current debates about grammar, and how we define, discuss, and approach it. Presents a novel, inquiry-based approach to understanding speakers' unconscious knowledge of English grammar Makes lucid connections, when relevant, with current linguistic theory Integrates language change and variation into the study of grammar Examines historical sources of socially evaluative perceptions of grammar, as 'good' or 'bad', and notions of language authority Provides syntactic explanations for many modern punctuation rules Explores some of the current controversies about grammar teaching in school and the role of Standard English in testing and assessment

English Grammar Zephyros Press

A guide to English and Chinese grammar explains a concept as it applies to both English and Chinese, offers examples in English and Chinese, and provides a word-for-word analysis of Chinese examples.

Mysteries of English Grammar Courier Corporation

The authoritative guide to using the English language effectively, from “ the greatest writer on grammar and usage that this country has ever produced ” (David Yerkes, Columbia University). The author of The Chicago Manual of Style ’ s popular “ Grammar and Usage ” chapter, Bryan A. Garner is renowned for explaining the vagaries of English with absolute precision and utmost clarity. With The Chicago Guide to Grammar, Usage, and Punctuation, he has written the definitive guide for writers who want their prose to be both memorable and correct. Garner describes standard literary English—the forms that mark writers and speakers as educated users of the language. He also offers historical context for understanding the development of these forms. The section on grammar explains how the canonical parts of speech came to be identified, while the section on syntax covers the nuances of sentence patterns as well as both traditional sentence diagramming and transformational grammar. The usage section provides an unprecedented trove of empirical evidence in the form of Google Ngrams, diagrams that illustrate the changing prevalence of specific terms over decades and even centuries of

English literature. Garner also treats punctuation and word formation, and concludes the book with an exhaustive glossary of grammatical terms and a bibliography of suggested further reading and references. The Chicago Guide to Grammar, Usage, and Punctuation is a magisterial work, the culmination of Garner ’ s lifelong study of the English language. The result is a landmark resource that will offer clear guidelines to students, writers, and editors alike. “ [A manual] for those of us laboring to produce expository prose: nonfiction books, journalistic articles, memorandums, business letters. The conservatism of his advice pushes you to consider audience and occasion, so that you will understand when to follow convention and when you can safely break it. ” —John E. McIntyre, Baltimore Sun
