Real English Grammar presents grammar in a fresh and student-friendly way, and with the focus on context. It is designed for use in the classroom or for

self-study. Each unit engages the student from the start with a passage of authentic text, designed to show how the grammatical or lexical area is used in a real context. An audio CD allows the student to listen to these texts read by native speakers at natural speeds in a variety of accents.

Exercises and examples throughout Real English Grammar ensure that meaning, as well as form, are clearly

understood.

Pearson Longman English Grammar in Use is a unique combination of reference grammar and practice book for intermediate students (including both lower and upper-intermediate). Designed as a self-study book, it will enable learners to select and study at their own speed those

grammar points which they find confusing and want to clarify. All the traditional grammar problems which intermediate students encounter e.g. tenses, modals, prepositions etc., are thoroughly covered. The page layout of each unit makes for ease of use, with the grammar point explained on the left-hand page and exercises to practise it on the right-hand page. There are 130 units in

all, and a contents list and detailed index ensure that students can easily find the units they need.

Vocabulary in Use: Upper Intermediate helps high-intermediate to advanced learners consolidate and expand their knowledge of English vocabulary.

The book contains 100 lessons that cover approximately 3,000 new vocabulary items. Ideal for self-study, its easy-to-use format presents a content- or grammar-based area of vocabulary on the left-hand page and innovative practice activities on the right-hand page. Firmly based on current vocabulary acquisition theory, this text promotes good learning habits and teaches students how to	discover rules for using vocabulary correctly. An edition with an answer key, suitable for self-study, is available; an intermediate level is also available. The Chinese Grammar Wiki began in 2012 as a modest website with a bold vision: to record all of the grammar structures in the Chinese language, categorize them by difficulty level, explain each one in clear, jargon-free English, and link them all together. Initially the wiki was a resource exclusively for the

clients of AllSet Learning's Shanghai-based learning consultancy. But five years later, its popularity among learners has exploded, and the Chinese Grammar Wiki has become the #1 online resource for Chinese grammar among independent learners and college students alike. This book is the third major volume, covering all essential grammar points that an

upper intermediate (B2) learner needs to master. Together with the Elementary and Intermediate volumes, the series comprises the most complete single resource on Chinese grammar in print. This volume features:- 160 Upper Intermediate (B2)) grammar points- 200+ separate grammar structures- 1,700+ examples (with pinyin and English translation)- Extensive
