This book presents an overview of revisiting the assessment of language abilities. It also showcases how the measurement of such constructs can result in negative or positive washback and how outcomes might be conducive to repercussions that decide on the future of many stakeholders. The 23 chapters were selected among tens of chapters received from different contexts that addressed the issue of revisiting the assessment of language abilities, such as Tunisia, Ukraine, Algeria, Russia, KSA, Sudan, Egypt, Canada, Kurdistan, UK, USA, Iran, Turkey, etc. These contexts have highlighted the necessity to revisit the different constructs which should be assessed with a clear and straightforward foundation on students' learning objectives and their actual language ability. To do so, most of the chapters present hands-on use of relevant statistical tests that might serve in revisiting the construct definition both theoretically and operationally. Perhaps the sole and intricate question that the authors of these contributions ask is what it means to revisit the assessment of the construct of individualized language ability and how. In addition, the book accentuates the momentousness and significance of reflecting on test fairness and validation as the mainspring and backbone for democratization of assessment. This book appeals to a broad readership, such as English Language Teaching (ELT) practitioners, language teachers, students, testing organizations, policy-makers, test designers, writers of test specifications, testing experts, researchers, program evaluators, especially in the Middle East and North Africa (MENA) as well as other international contexts.

Ernesto Macaro brings

together a wealth of research on the rapidly expanding phenomenon of English Medium Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the momentum of EMI is unlikely to be diminished, and identifying its potential

benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost–benefit analysis of its future impact. “This state-of-the-art monograph presents a wide-ranging, multi-perspectival yet coherent overview of research, policy, and practice of English Medium Instruction around the globe. It gives a thorough, in-depth, and thought-provoking treatment of an educational phenomenon that is spreading on an unprecedented scale.”

In Oscar Wilde's *Chatterton*, Joseph Bristow and Rebecca N. Mitchell explore Wilde's fascination with the eighteenth-century forger Thomas Chatterton, who tragically took

his life at the age of seventeen. This innovative study combines a scholarly monograph with a textual edition of the extensive notes that Wilde took on the brilliant forger who inspired not only Coleridge, Wordsworth, and Keats but also Victorian artists and authors. Bristow and Mitchell argue that Wilde's substantial "Chatterton" notebook, which previous scholars have deemed a work of plagiarism, is central to his development as a gifted writer of criticism, drama, fiction, and poetry. This volume, which covers the whole span of Wilde's career, reveals that his research on Chatterton informs his deepest engagements with Romanticism, plagiarism, and forgery, especially

in later works such as "The Portrait of Mr. W. H.," "The Picture of Dorian Gray," and "The Importance of Being Earnest." Grounded in painstaking archival research that draws on previously undiscovered sources, Oscar Wilde's *Chatterton* explains why, in Wilde's personal canon of great writers (which included such figures as Charles Baudelaire, Gustave Flaubert, Théophile Gautier, and Dante Gabriel Rossetti), Chatterton stood as an equal in this most distinguished company. *English Medium Instruction* Yale University Press
It has never been more important for schools and instructors to consider best practices and

strategies to appropriately design effective English language courses. Teaching English successfully to diverse audiences requires an understanding of how to communicate with students based on their individual needs and backgrounds. In order to ensure schools provide the best English language education possible, they must examine and apply innovative research in the field. *Intercultural Communication and Ubiquitous Learning in Multimodal English Language Education* reviews and reports the current research methods and theoretical advances in English language learning linked to applied technologies and action research. The book considers the most innovative approaches to

English language education from an intercultural and communicative perspective that covers key concepts such as collaborative ubiquitous learning and multimodal communication. Covering topics such as social networks, virtual environments, and intercultural awareness, this reference work is crucial for academicians, researchers, scholars, practitioners, instructors, and students.

Journal of Critical Studies in
Language and Literature
(JCSLL) is a bimonthly double-blind peer-reviewed "Premier" open access journal that

represents an interdisciplinary and critical forum for analysing and discussing the various dimensions in the interplay between language, literature, and translation. It locates at the intersection of disciplines including linguistics, discourse studies, stylistic analysis, linguistic analysis of literature, comparative literature, literary criticism, translation studies, literary translation and related areas. It focuses mainly on the empirically and critically founded research on the role of language, literature, and translation in all social processes and dynamics. Articles

submitted to JCSLL should bring together critical theories and concepts and in-depth, empirical, language- and literary-oriented analysis. They have to be problem-oriented and rely on well-informed contemporary as well as historical contextualisation of the analysed texts and contexts.

Methodologies can be qualitative, quantitative or mixed, but must in any case be systematic and anchored in relevant linguistic, literary, and translation disciplines.

Text World Theory is a cognitive

model of all human discourse processing. In this introductory textbook, Joanna Gavins sets out a usable framework for understanding mental representations. *Text World Theory* is explained using naturally occurring texts and real situations, including literary works, advertising discourse, the language of lonely hearts, horoscopes, route directions, cookery books and song lyrics. The book will therefore enable students, teachers and researchers to make practical use of the text-world framework in a wide range of linguistic and literary contexts.

This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies, which Marcuse defines as "all those subjects and lines of critical and scholarly inquiry presently pursued by members of university

departments of English language and literature." Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories. The annotations and various indexes are models of clarity and usefulness, and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print, such as

James L. Harner's *Literary Research Guide* (Modern Language Assn. of America, 1989), larger academic libraries will want Marcuse's volume.-- Jack Bales, Mary Washington Coll. Lib., Fredericksburg, Va. -*Library Journal*.

This book is a comprehensive and thorough introduction to children's and young adult literature in English language education. Reading is promoted as central to

language education in order to experience perspectives from around the world, and the book demonstrates the many opportunities for teaching with compelling story, encouraging an active and engaged community of second language readers through challenging picturebooks, motivating graphic novels, dynamic plays, enchanting verse novels and compelling young adult fiction. Using many examples of literary texts that are well suited to the primary or secondary classroom, the book focuses

on the advantages of deep reading and the vital importance of in-depth learning. In-depth learning is an approach that involves the students as motivated participants, working collaboratively and with empathy while preparing for and confronting the challenges of the 21st century. Illustrating the approach with a Deep Reading Framework based in research and theory, Janice Bland guides the reader to discover and learn how to make use of literary texts in a way that challenges students to

become involved in interculturality, creativity and critical literacy. Throughout the book the emphasis is on an approach that puts the reader and language learner in the centre – not a study of literature but a study of how readers learn through compelling story.

Hyperbole in English Oxford University Press

Non-literal language is ubiquitous in everyday life, and while hyperbole is a major part of this, it has so far remained relatively unexplored. This volume provides the first investigation of hyperbole in English, drawing on data from genres such as spoken conversation, TV, newspapers, and literary works from Chaucer to Monty Python. Combining quantitative and qualitative analyses, it uses approaches from

semantics, pragmatics, discourse analysis and classical rhetoric to investigate in detail both speaker-centered and emotive aspects of hyperbole, and also addressee-related aspects, such as interpretation and interactional uptake. Illustrated with a range of diachronic case studies, hyperbole is also shown to be a main means of linguistic creativity, and an important contributor to language change. The book concludes with an exploration of the role of hyperbole in political speaking, humour, and literature. Original and in-depth, it will be invaluable to all those working on meaning, discourse, and historical linguistics. Jellic - Journal of English Language, Literature and Culture

The agents at the IRS Regional Examination Center in Peoria, Illinois, appear ordinary enough to newly arrived trainee David Foster Wallace. But as he immerses himself in a routine so tedious and repetitive that new employees receive boredom-survival training, he learns of the extraordinary variety of personalities drawn to

this strange calling. And he has arrived at a moment when forces within the IRS are plotting to eliminate even what little humanity and dignity the work still has. The Pale King remained unfinished at the time of David Foster Wallace's death, but it is a deeply compelling and satisfying novel, hilarious and fearless and as original as anything Wallace ever undertook. It grapples directly with ultimate questions--questions of life's meaning and of the value of work and society--through characters imagined with the interior force and generosity that were Wallace's unique gifts. Along the way it suggests a new idea of heroism and commands infinite respect for one of the most daring writers of our

time.

In this celebrated memoir and exploration of identity, cancer transforms the author's face, childhood, and the rest of her life. At age nine, Lucy Grealy was diagnosed with a potentially terminal cancer. When she returned to school with a third of her jaw removed, she faced the cruel taunts of classmates. It took her twenty years of living with a distorted self-image and

more than thirty years of reconstructive procedures before she could come to terms with her appearance. In this lyrical and strikingly candid memoir, Grealy tells her story of great suffering and remarkable strength without sentimentality and with considerable wit. She captures what it is like as a child and a young adult to be torn between two warring impulses: to feel that more than anything else we want to be loved for who we are, while wishing desperately and secretly to be perfect. This volume, the ninth in the series of *The Variorum Edition of the Poetry of John Donne*, presents newly edited critical texts of 25 love lyrics. Based on an exhaustive study of the manuscripts and printed editions in which these poems have appeared, Volume 4.2

details the genealogical history of each poem, accompanied by a thorough prose discussion, as well as a General Textual Introduction of the Songs and Sonets collectively. The volume also presents a comprehensive digest of the commentary on these Songs and Sonets from Donne's time through 1999. Arranged chronologically within sections, the material for each poem is organized under various headings that complement the volume's companions, Volume 4.1 and Volume 4.3.
