Continuing on from the previously published *Primary School English-Language Education in Asia: From Policy to Practice* (Moon & Spolsky, 2012), this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul, Korea. It surveys the current status, practices, challenges, and future directions of Secondary English education in 11 diverse countries - in Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories, and practices related to the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. *Secondary School English Education in Asia: From Policy to Practice* critically analyses both sides of the English language debate – from advantages to complications – in its chapters including: *Educating for the 21st Century: The Singapore Experience* *Miles to Go ...: Secondary Level*

English Language Education in India *English Language Education Innovation for the Vietnamese Secondary School: The Project 2020* *Exploring the Value of ELT as a Secondary School Subject in China: A Multi-goal Model for English Curriculum* *Secondary School English Education in Asia* will appeal to English Language Teaching (ELT) researchers, teacher educators, trainee teachers and teachers, primarily those teaching in Asia. *Genuine Exam Questions From Yesteryear* *Diamond Power Learning*

This publication is a result of the joint conference held by MATSDA and Fontys University of Applied Sciences, the Netherlands, in Tilburg in June 2017. MATSDA is an international materials development association founded in 1993 which serves to bring together researchers, teachers, materials developers and publishers in an effort to improve the effectiveness of language learning materials. The 2017 conference centred on issues related to the development of meaning-focused materials for language learning, and attracted presenters from twenty-five countries stretching from Greenland to Brazil. These issues are reflected in the chapters in this volume,

with each one focusing on a different aspect of meaning-focused materials and many of them introducing the reader to previously unexplored facets of the theory of meaning-focused instruction and its application to materials development. The contributions here are of essential value to post-graduate students, to teachers, to materials developers and to researchers. They are written to be academically rigorous, but at the same time accessible to newcomers to the field and to experienced experts alike.

Originally published in 1972. 1900-1970 saw extensive changes in the teaching of English in schools. The volume studies English instruction as it developed at junior and secondary level over this period. Using textbooks, method books, Board and Ministry Reports and other contemporary opinion, the book examines the basic questions arising from this historical survey.
