security issues, in which international law plays a vital role. Paramount to both policymakers and researchers in the field of water law, the current status of transboundary water cooperation schemes and how these operate in China is of global significance. Grounded in international experience, this comprehensive volume provides readers with an up-to-date overview of current international transboundary water resource sharing policies and practices, including detailed case studies at both domestic and international levels. The authors discuss existing international laws, treaties, and principles that may stimulate transboundary water cooperation and dialogue, and then analyse a number of international experiences with treaties in North America, Eastern Europe, and Central Asia. They take stock of China's water resource issues, legal practices and options, examine case studies of China's southern shared rivers, and explore some innovative approaches to cooperative management of shared waters within China. The articles in this book were originally published in the journal *Water International*.

This book reviews the techniques, mechanisms and architectures of the way disputes are processed in England and Wales. Adopting a comparative approach, it evaluates the current state of the main different types of dispute resolution systems, including business, consumer, personal injury, family, property, employment and claims against the state. It provides a holistic overview of the whole system and suggests both systemic and detailed reforms. Examining dispute resolution pathways from users' perspectives, the book highlights options such as ombudsmen, regulators, tribunals and courts as well as mediation and other ADR and ODR approaches. It maps numerous sectoral developments to see if learning might be spread to other sectors. Several recurrent themes arise, including the diversification in the use of techniques; adoption of digital, online and artificial technology; cost and funding constraints; the emergence of new intermediaries; the need to focus accessibility arrangements for people and businesses that need help with their problems; and identifying effective ways for achieving behavioural change. This timely study analyses the shift from adversarial legalism to softer means of resolving social problems, and points to a major opportunity to

devise an imaginative and holistic strategic vision for the jurisdiction.

This research monograph is the first authoritative work on the office of the Welsh Language Commissioner and the associated Welsh language regulatory and statutory regime. In setting the Commissioner in context – in Wales, the UK and internationally – the work draws upon a rich variety of source material arising from fieldwork conducted in a

number of jurisdictions. The research data includes, for example, an extensive series of documents obtained under a number of Freedom of Information applications, in-depth interviews with key actors from pertinent legislatures, governments, regulatory offices, interest groups and civic society. The linguistic coverage of source material includes English and Welsh, as well as, where relevant, Irish, German, Catalan, Spanish, French and Basque, in a publication which is multi-disciplinary in approach, engaging with the scholarly and professional literature in language policy and planning, socio-legal studies and the politics of language.

This volume argues that districts are important as a lever for change given the limited success of school-by-school efforts. Policies that focus on skill development, recognize and support performance, create opportunities for collaboration, build leader capacity, and create networks of knowledge sharing hold great potential for improving districts but it will

require a paradigm shift in the way we view our public school system and those who work within it - away from blame and toward complex systems change.

Globalization and Development is a "cross-national study" on the "interstate

dispersion" of the impacts (on growth, inequality and poverty) that international economic integration provides to the economies of the developing countries. In order to present the "Leading Issues in Development with Globalization" in a balanced manner, to identify differences and commonalities among "Country Experiences" in development with globalization, and to introduce diversified development paradigms with forward looking discussions "In Search of a New Development Paradigm" for the post-MDGs era, this publication consists of three volumes and four main parts. Volume I (Part I) introduces the evolution and facets of globalization, and the challenges that we face in our development efforts under globalization. Findings from the old and new empirical studies are consolidated for us to answer the following question. What do we really know about the impacts of globalization? Volume I (Part II) contains thematic and issue-oriented discussions on the key facets of globalization. This book intends to serve as a unique and comprehensive guide

for those in the international development community on the subjects of diversified development paradigms/paths under globalization and other challenges in the post-MDGs era.

This book examines the increasing territorialisation of party competition and the relaxation of unitarian rule through devolution, presenting a long-term analysis of electoral developments in the United Kingdom since the end of the Second World War. Subsequently, the book looks into the undermining of the traditional majoritarian mode of British government as a result. It analyzes the significant role of these long-term developments and their detrimental effect on the parliament's ability to resolve issues like the Scottish Independence Referendum or the UK's vote to leave the European Union, and it addresses their underlying causes. The author additionally reconnects these electoral developments to the changing nature of devolution and shows how the deepening of devolution accelerates the negative electoral consequences for the British system of government. Finally, the book shows why the British Labour Party is turning more and more into a long-term minority party as a result of these

developments. The book is a must-read for scholars, students and policy-makers, interested in a better understanding of comparative politics and devolution in general, as well as in the more specific case of the United Kingdom's electoral system.
