Primary Science: Promoting positive attitudes to conceptual learning is a full colour, core textbook to support, inform and inspire anyone training to teach Science at primary level. This book is a new kind of text linking subject knowledge and pedagogy in one package, rather than treating them as separate entities. The text aims to encourage trainee teachers to teach scientific concepts in contexts which will inspire the children to look at the world in new and intriguing ways, rather than presenting it as a list of facts and definitions. Encouraging critical reflection and offering practical support, this book will help trainee

teachers to overcome negative attitudes to Science. The two part structure of the book first presents insights into the nature of science and science education, exploring issues such as the value and purpose of teaching Science in the primary school and the value of scientific enquiry. It then moves on to cover subject knowledge, relating it to pedagogy.

"Locating information on women is difficult and the editors have done a fine job assembling and publishing information extant on individual women from many nations both living and dead. Because in some cases only birth, marriage, children, and death dates are known, the 10,000 articles vary in length according to the subject. If you haven't been able to answer reference questions on women, you need this set."--"Outstanding Reference Sources," American Libraries, May 2001.

In *New York Theatre Walks*, Howard Kissel provides a series of seven self-guided walking tours not just of the theatre district but of the East and West Village, the Lower East Side, and the Upper West Side neighborhoods uptown and downtown that illuminate the theatre's intimate relationship with the city. On one tour, we follow the career of Irving Berlin from the sites of his theatrical triumphs to the ultra-posh corner where this Lower

East Side boy eventually made his home. There's also "Adolph Green's Daily 'Commute,'" a route on which he went to meet and work with his musical theatre writing partner Betty Comden, and on a culinary tour we see the way Times Square eateries contributed to theatre history. The book abounds in Broadway anecdotes, but it also gives the walker a sense of the city's own complex, rich history. *East Side, West Side, All Around the Town, New York Theatre Walks* provides enjoyment and instruction not just for visitors eager to get off the beaten path but for the native who wants to find the theatrical past lying behind the sights one passes on a regular basis. **Paradise Lost** Samuel French, Inc. *The Enjoyment of Theatre* Pearson College Division *Theater Careers* The Enjoyment of Theatre Although normally thought of in terms of its creative and artistic values, staging a play or musical involves numerous legal relationships and obligations. Accordingly, this casebook provides the first comprehensive overview of the law governing the theater industry. Among the subjects examined are the history of the theater; the practice of theater law; the creative rights

of playwrights; the financial rights of producers and investors; the employment rights of directors, performers, and crew members; and the attendance rights of audiences. While principally concerned with Broadway and Off-Broadway productions, the final two chapters focus on road tours and amateur theater groups. The casebook's 104 principal readings use the battles fought over some of Broadway's biggest shows to spark student interest and promote classroom discussion. The line-up includes such hits as *Annie*, *Bus Stop*, *Cats*, *Guys and Dolls*, *Jekyll & Hyde*, *Jesus Christ Superstar*, *Miss Saigon*, *My Fair Lady*, *Rent*, *South Pacific*, *The King and I*, *The Music Man*, *The Phantom of the Opera*, *The Producers*, *The Sound of Music*, and *Urinetown*. Also taking turns are such notable figures as Jackie Mason, Ann Miller, Rosie O'Donnell, Eugene O'Neill, Lynn Redgrave, Neil Simon, Cicely Tyson, and Tennessee Williams. Supplementing the principal readings are 145 notes, 28 problems, and nine appendices. While the notes and problems help students sharpen their grasp of the underlying concepts, the appendices reproduce the essential contracts used by theater lawyers. Because the chapters have been written in "stand-alone" fashion, instructors are able to rearrange them to fit their interests and time requirements. Jarvis,

Chaikelson, Corcos, Edmonds, Garon, Ghosh, Henslee, Kende, Palmer, Schultz, Scordato, and White have avoided "squib" cases, used both legal and non-legal materials, and included numerous references to secondary sources. The result is a highly-engaging work that supports both survey courses and seminars and fills the gap left by entertainment law casebooks, which tend to focus on movies and television. At the same time, it provides instructors with an opportunity to bolster their students' understanding of such fields as anti-trust law, arbitration, contracts, First Amendment law, labor and employment law, professional responsibility, and torts. A 168-page teacher's manual walks both new and experienced instructors through the materials, offering detailed analyses, questions to be asked in class, and suggestions for field trips, outside speakers, and extra credit assignments.

A substantive exploration of theatrical costume Stage costumes reveal character. They tell audiences who the character is or how a character functions within the world of the play, among other things. Theatrical costuming, however, along with other forms of theatre design,

has often been considered merely a craft, rather than part of the deeply systemic creation of meaning onstage. In what ways do our clothes shape and reveal our habits of behavior? How do stage costumes work to reveal one kind of habit via the manipulation of another? How might theatre practitioners learn to most effectively exploit this dynamic? Theatre Symposium, Volume 26 analyzes the ways in which meaning is conveyed through costuming for the stage and explores the underlying assumptions embedded in theatrical practice and costume production. No judgement of taste is innocent - we are all snobs. Pierre Bourdieu's *Distinction* brilliantly illuminates the social pretensions of the middle classes in the modern world, focusing on the tastes and preferences of the French bourgeoisie.

First published in 1979, the book is at once a vast ethnography of contemporary France and a dissection of the bourgeois mind. In the course of everyday life we constantly choose between what we find aesthetically pleasing, and what we consider tacky, merely trendy, or ugly.

Taste is not pure.

Bourdieu demonstrates that our different aesth
